It is the intent of the Legislature that transitional health care coverage be made available on a sliding-scale basis to individuals and families with incomes up to one hundred eighty-five percent of the federal poverty level if

other health care coverage is not available.

Sec. 2. Section 68-1723, Reissue Revised Statutes of Nebraska, is amended to read:

68-1723. (1) Cash assistance shall be provided only while recipients are actively engaged in the specific activities outlined in the self-sufficiency contract developed under section 68-1719. If the recipients are not actively engaged in these activities, no cash assistance shall be paid.

(2) Recipient families with at least one adult with the capacity to work, as determined by the comprehensive assets assessment, shall participate in the self-sufficiency contract as a condition of receiving cash assistance. If any such adult fails to cooperate in carrying out the terms of the contract, the family shall be ineligible for cash assistance.

(a) Adult members of recipient families whose youngest child is between the ages of twelve weeks and ~~six~~ twelve months shall engage in an individually determined number of part-time hours in activities such as family nurturing, preemployment skills, or education.

(b) Participation in activities outlined in the self-sufficiency contract shall not be required for one parent of a recipient family whose youngest child is under the age of twelve ~~weeks~~ months.

(c) The two-year time limit on cash assistance under section 68-1724 shall be extended: (i) To cover the ~~twelve-week postpartum recovery~~ twelve-month postpartum period for children born to recipient families; and (ii) to recognize special medical conditions of such children requiring the presence of at least one adult member of the recipient family, as determined by the state, which extend past the age of twelve ~~weeks~~ months.

(d) Full participation in the activities outlined in the self-sufficiency contract shall be required for adult members of a recipient family whose youngest child is over the age of ~~six~~ twelve months.

(e) Full participation in the activities outlined in the self-sufficiency contract and the two-year time limit on cash assistance under section 68-1724 shall begin for a minor parent when: (i) The minor parent graduates from high school; (ii) the minor parent receives his or her General Education Development diploma; or (iii) the minor parent reaches nineteen years of age.

(f) In cases in which the only adults in the recipient family do not have parental responsibility which shall mean such adults are not the biological or adoptive parents or stepparents of the children in their care, and assistance is requested for all family members, including the adults, the family shall participate in the activities outlined in the self-sufficiency contract as a condition of receiving cash assistance.

(g) Unemployed or underemployed absent and able-to-work parents of children in the recipient family may participate in self-sufficiency contracts, employment, and payment of child support, and such absent parents may be required to pay all or a part of the costs of the self-sufficiency contracts.

(3) Individual recipients and recipient families shall have the right to request an administrative hearing (a) for the purpose of reviewing compliance by the state with the terms of the self-sufficiency contract or (b) for the purpose of reviewing a determination by the department that the recipient or recipient family has not complied with the terms of the self-sufficiency contract. It is the intent of the Legislature that an independent mediation appeal process be developed as an option to be considered.

Sec. 3. Section 68-1724, Reissue Revised Statutes of Nebraska, is amended to read:

68-1724. (1) Cash assistance shall be provided for a period or periods of time not to exceed a total of two years for recipient families with children subject to the following:

(a) If the state fails to meet the specific terms of the self-sufficiency contract developed under section 68-1719, the two-year time limit established in this section shall be extended for an additional period of not more than two years;

(b) The two-year time period for cash assistance shall begin when the self-sufficiency contract is signed or when any children born into the recipient family prior to the initial ten months of assistance reach the age of ~~six~~ twelve months, whichever is later;

(c) When no longer eligible to receive cash assistance, assistance shall be available to reimburse work-related child care expenses even if the recipient family has not achieved economic self-sufficiency. The amount of such assistance shall be based on a cost-shared plan between the recipient family and the state which shall provide assistance up to one hundred eighty-five percent of the federal poverty level for up to twenty-four months. A recipient family may be required to contribute up to twenty percent of such family's gross income for child care. It is the intent of the Legislature that transitional health care coverage be made available on a sliding-scale basis to individuals and families with incomes up to one hundred eighty-five percent of the federal poverty level if other health care coverage is not available;

(d) After receiving cash assistance under this section for two years at a monthly payment level not exceeding that provided in section 43-512, families shall receive no further cash assistance pursuant to this section for at least two years after the assistance period ends; and

(e) The self-sufficiency contract shall be revised and the two-year time period for cash assistance extended when there is no job available for adult members of the recipient family. It is the intent of the Legislature that available job shall mean a job which results in an income of at least equal to the amount of cash assistance that would have been available if receiving assistance minus unearned income available to the recipient family.

The department shall develop policy guidelines to allow for cash assistance to persons who have received the maximum cash assistance provided by this section and who face extreme hardship without additional assistance. For purposes of this section, extreme hardship means a recipient family does not have adequate cash resources to meet the costs of the basic needs of food, clothing, and housing without continuing assistance or the child or children are at risk of losing care by and residence with their parent or parents.

(2) Cash assistance conditions under the Welfare Reform Act shall be as follows:

(a) Adults in recipient families shall mean individuals at least nineteen years of age living with and related to a child eighteen years of age or younger and shall include parents, siblings, uncles, aunts, cousins, or grandparents, whether the relationship is biological, adoptive, or step;

(b) The payment standard shall be based upon family size. Any child born into the recipient family after the initial ten months of participation in the program shall not increase the cash assistance payment, except that child support or other income received on behalf of such child or children shall not be considered as countable income to the recipient family in determining the amount of their cash assistance payment;

(c) The adults in the recipient family shall ensure that the minor children regularly attend school. Education is a valuable personal resource. The cash assistance provided to the recipient family may be reduced when the parent or parents have failed to take reasonable action to encourage the minor children of the recipient family ages sixteen and under to regularly attend school. No reduction of assistance shall be such as may result in extreme hardship. It is the intent of the Legislature that a process be developed to insure communication between the case manager, the parent or parents, and the school to address issues relating to school attendance;

(d) Two-parent families which would otherwise be eligible under section 43-504 or a federally approved waiver shall receive cash assistance under this section;

(e) For minor parents, the assistance payment shall be based on the minor parent's income. If the minor parent lives with at least one parent, the family's income shall be considered in determining eligibility and cash assistance payment levels for the minor parent. If the minor parent lives independently, support shall be pursued from the parents of the minor parent. If the absent parent of the minor's child is a minor, support from his or her parents shall be pursued. Support from parents as allowed under this subdivision shall not be pursued when the family income is less than three hundred percent of the federal poverty guidelines; and

(f) For adults who are not biological or adoptive parents or stepparents of the child or children in the family, if assistance is requested for the entire family, including the adults, a self-sufficiency contract shall be entered into as provided in section 68-1719. If assistance is requested for only the child or children in such a family, such children shall be eligible after consideration of the family's income and if (i) the family cooperates in pursuing child support and (ii) the minor children of the family regularly attend school.

Senator Dierks filed the following amendment to LB 957:
AM2676

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. Increasing levels of carbon dioxide and other greenhouse gases in the atmosphere has led to growing interest in national and international forums for implementing measures to slow and reverse the buildup of such atmospheric constituents. Such measures may potentially include the establishment of systems of trading in credits for adoption of practices, technologies, or other measures which decrease net emissions of carbon dioxide and other greenhouse gases.

Improved agricultural production methods, soil conservation practices, and other methods of stewardship of soil resources have great potential to increase carbon sequestration on agricultural lands and help offset carbon dioxide emissions from other sectors of the economy. It is in the interest of agricultural producers and the public in general that the Nebraska Natural Resources Commission document and quantify carbon sequestration and greenhouse emissions reductions associated with agricultural practices, management systems, and land uses occurring on cropland and rangeland in Nebraska. It is the intent of the Legislature that efforts to quantify and verify carbon sequestration on agricultural land will enhance the ability of the state's agricultural landowners to participate in any system of carbon or greenhouse emissions marketing or trading.

Sec. 2. (1) The Carbon Sequestration Advisory Committee is created. The committee shall consist of the following members appointed by the Governor:

(a) The Director of Agriculture or his or her designee;

(b) The Director of Natural Resources or his or her designee;

(c) The Director of Environmental Quality or his or her designee;

(d) One member representing the Natural Resources Conservation Service of the United States Department of Agriculture;

(e) One member representing the University of Nebraska Institute of Agriculture and Natural Resources;

(f) One member representing the Nebraska Energy Office;

(g) One member representing an entity which generates electrical energy;

(h) Two members who are producers of field crops at least one of whom actively employs a minimum tillage management system in his or her farming operation;

(i) Two members who are producers of livestock at least one of whom is actively involved in range management;

(j) One member with expertise in greenhouse emissions marketing or trading;

(k) One member representing natural resources districts; and

(l) One member representing the ethanol industry.

(2) Members of the committee shall serve without compensation but shall be reimbursed for their actual and necessary expenses as provided in sections 81-1174 to 81-1177. The Director of Natural Resources shall assist the committee with administrative and operational support. The Nebraska Natural Resources Commission may advise the committee in the performance of its duties under sections 1 to 6 of this act.

Sec. 3. The Carbon Sequestration Advisory Committee shall:

(1) Advise and assist the Director of Natural Resources in preparing the reports pursuant to sections 4 and 5 of this act

and in conducting the assessment pursuant to section 5 of this act;

(2) Recommend policies or programs to enhance the ability of Nebraska agricultural landowners to participate in systems of carbon trading. Such recommendations shall include potential policies or programs designed to optimize economic benefits to agricultural producers participating in carbon trading transactions. Such policies or programs may include, but are not limited to, identifying existing or the potential of creating nonprofit organizations or other public or private entities capable of serving as assemblers of carbon credits or as intermediaries on behalf of producers in carbon trading systems;

(3) Encourage the production of educational and advisory materials regarding carbon sequestration on agricultural lands and participation in systems of carbon or greenhouse emissions trading; and

(4) Identify and recommend areas of research needed to better understand and quantify the processes of carbon sequestration on agricultural lands.

Sec. 4. On or before December 1, 2001, the Director of Natural Resources, in consultation with the Carbon Sequestration Advisory Committee, shall prepare a report to the Legislature. The report shall include, but not be limited to:

(1) The potential for, and potential forms of, greenhouse emissions regulation;

(2) The potential for development of a system or systems of carbon emissions trading or markets for carbon sequestered on agricultural land;

(3) Agricultural practices, management systems, or land uses which increase stored soil carbon and minimize carbon dioxide or other greenhouse emissions associated with agricultural production;

(4) Methods for measuring and modeling net carbon sequestration and greenhouse emissions reduction associated with various agricultural practices, management systems, or land uses occurring on agricultural land;

(5) Areas of scientific uncertainty with respect to quantifying and understanding greenhouse emission reductions or soil carbon sequestration associated with agricultural activities; and

(6) Any recommendations of the Carbon Sequestration Advisory Committee developed pursuant to section 3 of this act.

Sec. 5. (1) The Director of Natural Resources shall, in consultation with the Carbon Sequestration Advisory Committee, assess agricultural lands in the State of Nebraska for past carbon sequestration and future carbon sequestration potential. The assessment shall seek to quantify carbon sequestration associated with various agricultural practices, management systems, and land uses occurring on agricultural lands in this state. On or before January 1, 2002, the director shall publish a report of the findings. The director may, from time-to-time, update such findings as advancements in understanding of the processes of carbon sequestration and new data become available.

(2) The assessment shall be conducted in a manner that shall provide a means for owners of agricultural land to estimate past and future net carbon sequestration resulting from agricultural practices, conservation measures, management systems, and land uses occurring on their property. The Director of Natural Resources may contract and cooperate with the Natural Resources Conservation Service of the United States Department of Agriculture to conduct assessment activities provided for in this section.

(3) The director may apply for and accept grants, gifts, or other sources of public and private funds to carry out the purposes of sections 1 to 6 of this act.

Sec. 6. The Carbon Sequestration Assessment Cash Fund is created. The fund shall be used to carry out sections 1 to 6 of this act. The State Treasurer shall credit to the fund any money appropriated to the fund by the Legislature and any money received as gifts, grants, or other contributions from public or private sources obtained for the purposes of sections 1 to 6 of this act. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act.

Sec. 7. Since an emergency exists, this act takes effect when passed and approved according to law.".

"Sec. 2. Section 18-2601, Reissue Revised Statutes of Nebraska, is amended to read:

18-2601. Sections 18-2601 to 18-2608 and section 8 of this act shall be known and may be cited as the Municipal Infrastructure Redevelopment Fund Act.

Sec. 3. Section 18-2602, Reissue Revised Statutes of Nebraska, is amended to read:

18-2602. The Legislature finds that the municipalities of the state face an urgent need to construct, upgrade, and develop municipal infrastructure facilities. By providing basic public facilities, the municipalities of the state provide the building blocks for economic development. Not only does the investment in infrastructure generate an immediate stream of economic activity, it also lays the groundwork for private investment that will use the facilities so provided. Municipalities in the state currently are in critical need of assistance in providing these facilities.

The Legislature determines that it is in the public interest to establish a Municipal Infrastructure Redevelopment Fund to provide funds to municipalities in the state to use to provide infrastructure facilities and to permit municipalities in the state to issue bonds secured by amounts payable from the Municipal Infrastructure Redevelopment Fund and other sources.

Sec. 4. Section 18-2603, Reissue Revised Statutes of Nebraska, is amended to read:

18-2603. For purposes of the Municipal Infrastructure Redevelopment Fund Act:

(1) Bond means any evidence of indebtedness, including, but not limited to, bonds, notes including notes issued pending long-term financing arrangements, warrants, debentures, obligations under a loan agreement or a lease-purchase agreement, or any similar instrument or obligation;

~~(3)~~ (4) Municipal allocation amount ~~shall~~ ~~mean~~ means, for each municipality, the amount derived by multiplying the amount to be allocated by the fraction determined by dividing the total population of the municipality by the total population of the state living in municipalities, each as determined by the most recent federal census figures certified by the Tax Commissioner as provided in section 77-3,119; and

~~(4)~~ (5) Municipality ~~shall~~ ~~mean~~ means any city of any class or any village in the state.

Sec. 5. Section 18-2606, Reissue Revised Statutes of Nebraska, is amended to read:

18-2606. Money received by a municipality or credited to its account from the fund shall be used for one of the following purposes:

(1) To pay for the construction, acquisition, or equipping of infrastructure projects or portions thereof; or

(2) To pay principal, interest, premium, and costs of issuance on bonds ~~debt~~ ~~incurred~~ ~~or~~ ~~securities~~ issued by the municipality to finance the construction, acquisition, or equipping of infrastructure projects or portions thereof.

Sec. 6. Section 18-2607, Reissue Revised Statutes of Nebraska, is amended to read:

18-2607. Each municipality shall be permitted to pledge the amounts on deposit or to be deposited in its account of the fund, as and when appropriated by the Legislature, to the holders of any bonds ~~debt~~ ~~incurred~~ ~~or~~ ~~securities~~ issued by the municipality to finance the construction, acquisition, or equipping of infrastructure projects as long as the lien of such pledge does not attach until funds are actually deposited into the municipality's account, and in no event shall such a pledge be construed as an obligation of the Legislature to appropriate such funds. Any such pledge shall be valid and binding from the time when the pledge is made. The money so pledged and thereafter received by the municipality or deposited into its respective account shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the municipality, irrespective of whether the parties have notice thereof. Neither the resolution nor any other instrument by which a pledge is created need be recorded.

Sec. 7. Section 18-2608, Reissue Revised Statutes of Nebraska, is amended to read:

18-2608. No ~~securities~~ bonds issued by any municipality ~~and~~ ~~pledging~~ which pledges funds to be deposited in its account of the fund shall constitute a debt, liability, or general obligation of this state or a pledge of the faith and credit of this state but shall be payable, to the extent payable from state revenue, solely from amounts credited to the accounts of the fund as provided by the Municipal Infrastructure Redevelopment Fund Act, as and when appropriated by the Legislature. Each ~~security~~ bond issued by any municipality ~~and~~ ~~pledging~~ which pledges funds to be deposited in its account of the fund shall contain on the face thereof a statement that neither the faith and credit nor the taxing power of this state is pledged to the payment of the principal of or the interest on such security.

For each year that the borrower teaches in Nebraska pursuant to the contract, payments shall be forgiven in an amount equal to the amount borrowed for one year, except if the borrower teaches in a school district that is at least partially in a local system classified in the very sparse cost grouping as provided in section 79-1007.02 or teaches in a school district in which at least forty percent of the students qualify for the poverty factor as provided in section 79-1007.01, payments shall be forgiven each year in an amount equal to the amount borrowed for two years.

Sec. 21. The department has the administrative responsibility to track borrowers and to develop repayment tracking and collection mechanisms. The department may contract for such services. When a loan has been forgiven pursuant to section 20 of this act, the amount forgiven becomes taxable income to the borrower and the department shall provide notification of the amount forgiven to the borrower, the Department of Revenue, and the United States Internal Revenue Service.

Sec. 22. Each eligible institution shall file an annual report with the department containing such information as required by rule and regulation. On or before November 15 of each year, the department shall submit a report to the Education Committee of the Legislature providing, at a minimum, information on an institution-by-institution basis and the status of borrowers. "1. Strike the original sections and insert the following new sections:

'Section 1. It is hereby declared to be the public policy of the state that, in order to safeguard life, health, property, and public welfare of its citizens, the production, sale, and use of motor fuel and the pollution caused by certain components of motor fuel are matters affecting the public interest and that a statewide emphasis on the production and use of motor fuel containing renewable fuel content is necessary for the reduction of pollution and will further serve as an incentive for the agricultural economy. The Legislature especially recognizes that renewable fuel and the development of an additional source of fuel will help meet the energy requirements necessary to safeguard life, health, property, and public welfare of our citizens.

Sec. 2. (1) Each retailer of motor fuel shall offer for sale, at the lowest octane rating sold by the retailer at that location, motor fuel which contains a renewable fuel content equal to or greater than three and one-half percent weight oxygen.

(2) Nothing in this act shall be construed to impair the obligation of any contract as prohibited by Article I, section 16, of the Constitution of Nebraska or to preclude the retailer of motor fuel from offering any fuel without renewable fuel content which is equal to or greater than the lowest octane rating which contains a renewable fuel content of at least three and one-half percent weight oxygen.

(3) For purposes of this section:

(a) Renewable fuel means fuel made from renewable sources such as ethanol produced from corn, sorghum, and biomass, but does not include methyl tertiary-butyl ether (MTBE); and

(b) Retailer of motor fuel has the same meaning as the definition of retailer in section 66-482.

Sec. 3. The Department of Revenue shall monitor and maintain a record of wholesale terminal prices of gasoline offered for sale, sold, or dispensed pursuant to section 2 of this act. On or before December 1, 2001, and each year thereafter, the Department of Revenue shall issue a report to the Legislature regarding its duties pursuant to this section.

Sec. 4. This act becomes operative on October 1, 2000.

Sec. 5. The following section is outright repealed: Section 66-1225, Reissue Revised Statutes of Nebraska.'.".

It is the intent of the Legislature that the Department of Health and Human Services shall provide state funding to the Nebraska Volunteer Services Commission to create a program officer position for the Teacher Corps AmeriCorps Education Award Program if the Corporation for National Service Commits to funding such program in Nebraska. State funding provided by the Department of Health and Human Services shall be used by the Nebraska Volunteer Services Commission to create a program officer position to meet the required monitoring and compliance responsibilities of the program.".

LEGISLATIVE BILL 1092. Placed on Select File as amended.
E & R amendment to LB 1092:
AM7225

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. The Legislature finds that:

(1) Increasing markets for small to medium-sized producers can enhance statewide agricultural economic development. Niche marketing through local retailers and restaurants can add value to the state agricultural economy;

(2) Public safety is of tantamount importance to assuring a safe food supply and a positive national opinion of Nebraska's meat producers; and

(3) A pilot program for state meat inspection would help the Department of Agriculture and the Department of Economic Development determine the economic impact of a state meat inspection program in Nebraska.

Sec. 2. It is the intent of the Legislature that beginning June 1, 2002, the Department of Agriculture shall implement a pilot program of state meat inspection at establishments, as defined by section 54-1902, which process meat, poultry, or meat and poultry products for human consumption for entry into intrastate commerce. It is the intent of the Legislature that such program of meat and poultry inspection shall be limited to small-to-medium size establishments as determined by rules and regulations of the department according to killing capacity or weight or volume of product produced under inspection.

Sec. 3. The Department of Agriculture shall employ a program administrator who shall be responsible for developing, implementing, and operating a state meat inspection program. Such administrator shall coordinate activities necessary, including cooperation with the United States Secretary of Agriculture, in order to prepare a state performance plan which meets the federal requirements for certification of a state program of meat and poultry inspection and includes requirements for ante mortem and post mortem inspection, reinspection, sanitation, and program management at least equal to those imposed under the Federal Meat Inspection Act, 21 U.S.C. 601 et seq., and the Poultry Products Inspection Act, 21 U.S.C. 451 et seq. The state may enter into cooperative agreements with the United States Secretary of Agriculture for financial, technical, and other assistance in order to develop and maintain a state program of meat and poultry inspection.

Sec. 4. On or before November 15, 2001, the Department of Agriculture and the Agriculture Committee of the Legislature shall provide a report to the Legislature which shall enumerate and describe any actions necessary to implement a state pilot program of meat and poultry inspection. The report shall recommend any necessary changes to the Nebraska Meat and Poultry Inspection Law, other statutory authority of the department, and any rules and regulations promulgated thereto in order to effect the purposes of section 2 of this act and to meet requirements for ante mortem and post mortem inspection, reinspection, sanitation, and program management requirements at least equal to those imposed under the Federal Meat Inspection Act, 21 U.S.C. 601 et seq., and the Poultry Products Inspection Act, 21 U.S.C. 451 et seq. The report shall discuss anticipated participation in the program, including the types and numbers of establishments where state meat and poultry inspection would be maintained, and shall include a detailed description of anticipated resources required to develop and maintain a program of meat inspection.

Sec. 5. (1) Except as provided in subsection 2 of this section, the state meat inspection pilot program shall terminate on January 1, 2006. At the conclusion of the third year of the pilot program, the Department of Agriculture and the Department of Economic Development shall evaluate the number of establishments which have become state-inspected facilities, the number of animals being processed at such establishments, and the economic impact of plants utilizing the pilot program. The departments shall report the results of the evaluation to the Governor and the Legislature within six months after commencing the evaluation.

(2) If state meat inspection is being maintained at fewer than five establishments on or after August 1, 2004, the state meat inspection pilot program shall be terminated. If the program is to be terminated, inspection may continue at state-inspected establishments for a period of time necessary to enable such establishments to process any remaining inventories, but such period shall not be longer than two weeks.".

(2) Copies made by citizens or other persons using their own copying or photocopying equipment pursuant to subdivision (1)(a) of this section shall be made on the premises of the custodian of the public record or at a location mutually agreed to by the requester and the custodian.

(3)(a) Copies may be obtained pursuant to subdivision (1)(b) of this section only if the custodian has copying equipment reasonably available. Such copies may be obtained in any form designated by the requester in which the public record is maintained or produced, including, but not limited to, printouts, electronic data, discs, tapes, and photocopies.

(b) Except as otherwise provided by statute, the custodian of a public record may charge a fee for providing copies of such public record pursuant to subdivision (1)(b) of this section, which fee shall not exceed the actual cost of making the copies available. For purposes of this subdivision, (i) for photocopies, the actual cost of making the copies available shall not exceed the amount of the reasonably calculated actual cost of the photocopies, (ii) for printouts of computerized data on paper, the actual cost of making the copies available shall include the reasonably calculated actual cost of computer run time and the cost of materials for making the copy, and (iii) for electronic data, the actual cost of making the copies available shall include the reasonably calculated actual cost of the computer run time, any necessary analysis and programming, and the production of the report in the form furnished to the requester. State agencies which provide electronic access to public records through a gateway service shall obtain approval of their proposed reasonable fees for such records pursuant to sections 84-1205.02 and 84-1205.03, if applicable, and the actual cost of making the copies available may include the approved fee for the gateway service.

(c) This section shall not be construed to require a public body or custodian of a public record to produce or generate any public record in a new or different form or format modified from that of the original public record.

(d) If copies requested in accordance with subdivision (1)(b) of this section are estimated by the custodian of such public records to cost more than fifty dollars, the custodian may require the requester to furnish a deposit prior to fulfilling such request.

(4) Upon receipt of a request for access to or copies of a public record, the custodian of such record shall provide to the requester as soon as is practicable and without delay, but not more than three business days after actual receipt of the request, either (a) access to or, if copying equipment is reasonably available, copies of the public record, (b) if there is a legal basis for denial of access or copies, a written denial of the request together with the information specified in section 84-712.04, or (c) if the entire request cannot with reasonable good faith efforts be fulfilled within three business days after actual receipt of the request due to the significant difficulty or the extensiveness of the request, a written explanation, including the earliest practicable date for fulfilling the request, an estimate of the expected cost of any copies, and an opportunity for the requester to modify or prioritize the request.

Sec. 2. Section 84-712.01, Reissue Revised Statutes of Nebraska, is amended to read:

Data which is a public record in its original form shall remain a public record when maintained in computer files.

(2) When a custodian of a public record of a county ~~which has a population of one hundred thousand inhabitants or more as determined by the most recent federal decennial census~~ provides to a member of the public, upon request, a copy of the public record by transmitting it from a modem to an outside modem, a reasonable fee may be charged for such specialized service. Such fee may include a reasonable amount representing a portion of the amortization of the cost of computer equipment, including software, necessarily added in order to provide such specialized service. This subsection shall not be construed to require a governmental entity to acquire computer capability to generate public records in a new or different form when that new form would require additional computer equipment or software not already possessed by the governmental entity.

(3) Sections 84-712 to 84-712.03 shall be liberally construed whenever any state, county, or political subdivision fiscal records, audit, warrant, voucher, invoice, purchase order, requisition, payroll, check, receipt, or other record of receipt, cash, or expenditure involving public funds is involved in order that the citizens of this state shall have the full right to know of and have full access to information on the public finances of the government and the public bodies and entities created to serve them.

Sec. 3. Section 84-712.03, Reissue Revised Statutes of Nebraska, is amended to read:

This determination shall be made within fifteen calendar days of the submission of the petition. If the Attorney General determines that the record may not be withheld or that the public body is otherwise not in compliance, the public body shall be ordered to disclose the record immediately or otherwise comply. If the public body continues to withhold the record or remain in noncompliance, the person seeking disclosure or compliance may (a) bring suit in the trial court of general jurisdiction or (b) demand in writing that the Attorney General bring suit in the name of the state in the trial court of general jurisdiction for the same purpose. If

such demand is made, the Attorney General shall bring suit within fifteen calendar days of its receipt. The requester shall have an absolute right to intervene as a full party in the suit at any time.

In any suit filed under this section, the court has jurisdiction to enjoin the public body from withholding records, to order the disclosure, and to grant such other equitable relief as may be proper. The court shall determine the matter de novo and the burden is on the public body to sustain its action. The court may view the records in controversy in camera before reaching a decision, and in the discretion of the court other persons, including the requester, counsel, and necessary expert witnesses may be permitted to view the records, subject to necessary protective orders.

Proceedings arising under this section, except as to the cases the court considers of greater importance, shall take precedence on the docket over all other cases and shall be assigned for hearing, trial, or argument at the earliest practicable date and expedited in every way.

Sec. 2. (1) The Legislature finds that there is a serious economic crisis in most of rural Nebraska, particularly in the agricultural and rural sector of the economy.

(2) The Legislature finds that there is a need in rural Nebraska to develop strategies and programs to create genuine economic opportunities that enable people to improve their incomes, avoid poverty, build assets, and develop their capacity to contribute to the betterment of their communities.

(3) The Legislature finds that strong communities enable local residents to be more self-sufficient, which contributes to the overall strength and well-being of Nebraska.

(4) The Legislature finds that there is a need to:

(a) Support self-employment and small-scale entrepreneurship in both agricultural and nonagricultural activities;

(b) Enhance income and opportunities for farming and ranching operations to stem the decline in the number of such operations;

(c) Develop strategies and programs to increase the farming and ranching operations share of the food system profit; and

(d) Build the capacity of farming and ranching operations and small rural businesses to benefit from the development of electronic commerce.

Sec. 3. For purposes of the Nebraska Agricultural and Rural Opportunities Act, farming or ranching operation means the active use, management, and operation of real and personal property for the production of crops or raising of livestock.

Sec. 4. (1) An agricultural and rural opportunities grant program shall be administered by the Department of Agriculture as provided in sections 4 to 8 of this act.

(3) Grants may be used to support projects in the following areas:

RESOLUTIONS

LEGISLATIVE RESOLUTION 329. Introduced by Wickersham, 49; Bohlke, 33.

PURPOSE:

1. Information about how students progress through public postsecondary educational institutions can guide state policymakers and institutions in improving the educational experience and utilizing state resources efficiently. Retention rates, graduation rates, and transfer data could be used to guide students, allocate resources, and design efficient programs.

2. While some data is currently gathered, no statewide system exists to gather and track student enrollment patterns of postsecondary students and to compile that information in a format that informs administrators and policymakers. The University of Nebraska system, the state college system, and the community colleges all collect and report data, and those existing systems should be built upon to minimize duplicative data gathering.

3. An electronic state student information tracking system could make accurate and comprehensive information about transfers between public postsecondary educational institutions, student retention, and degree completion available in a timely manner.

4. Data must be collected so that the confidentiality of individually identifiable information is maintained.

5. It is in the interest of the state that those entities which would be responsible for collecting and reporting the data cooperate with those entities which would use the information to determine how to design a system that would be efficient and effective.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 330. Introduced by Wickersham, 49; Bromm, 23.

PURPOSE:

1. The recent and unprecedented economic growth in the United States has been driven in large part by information technology. Access to advanced telecommunications services and adequate data transfer speeds (band width) are necessary for people and businesses to participate in this digital economy.

2. Certain segments of the population do not have access to broad band and advanced telecommunications services. The gap in available services denies those segments of the population participation in the digital economy

and reduces the growth that could otherwise be realized if the technology were available to them.

3. The speed at which technology develops threatens to widen the gap between the technology haves and have-nots, leaving unserved and underserved populations ever further behind.

4. The high costs of providing broad band and advanced telecommunications services mean that rural, sparsely populated areas will be the last areas to have such services deployed or no access to such services unless alternative measures are identified to assist.

5. It is time that measures be identified which would facilitate deployment of broad band and advanced telecommunications services to those segments of the population which do not have access to and which are likely to lag ever further behind in the digital economy.

6. Public input should be sought in order to identify possible strategies and mechanisms for ensuring equal access to the information technology economy.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

ATTORNEY GENERAL'S OPINION

Opinion #00021

DATE: March 20, 2000

SUBJECT: Reconsideration and clarification of Op. Att'y Gen. No. 00010 on assessment testing of academic standards by the Nebraska Department of Education.

REQUESTED BY: Douglas D. Christensen, Commissioner of Education
Senator Ardyce Bohlke, Education Committee Chair

WRITTEN BY: Don Stenberg, Attorney General
Charlotte R. Koranda, Assistant Attorney General

This opinion is written in response to your request for reconsideration and clarification of Op. Att'y Gen. No. 00010. In Op. Att'y Gen. No. 00010, this office stated that the Department of Education ("Department") could not conduct assessment testing on their four content standard regulations for purposes of satisfying the Department's responsibilities under Neb. Rev. Stat. § 79-760 (1998 Cum. Supp.).

Issues

Your letter indicates that your primary concern is the relationship between mandatory assessment testing required by § 79-760 and the State Board of Education's ("State Board") voluntary academic content standards in 94 NAC 1 through 4. On page one of your letter, you state: "We ask you to reconsider whether the statutory requirement to administer a standards-based assessment, by itself, has the effect of legally compelling districts to adopt and implement the standards on which the assessment is based."

You also state in your letter that the Department anticipates rating schools on the basis of their assessment reports. You state on page two of your letter: "We ask you to clarify whether a rating such as 'high performing' or 'low performing,' with no legal consequences attached, would constitute a legal reward or sanction and, therefore, necessitate that the Department's standards be mandatory and specific."

Administrative Regulations and Statutes

We will briefly summarize the applicable regulations and statutes. A more comprehensive review of this information is available in Op. Att'y Gen. No. 00010.

The Department's four academic standards are Nebraska Mathematics Content Standards, 94 NAC 1; Nebraska Reading/Writing Content Standards, 94 NAC 2; Nebraska Science Content Standards, 94 NAC 3; and Nebraska Social Studies/History Content Standards, 94 NAC 4. The Department's purpose for adopting these standards is set forth in § 001.01 of all four of these regulations. "The State Board of Education adopts these standards to identify what students should know and be able to do and what teachers should teach." The Attorney General's office conditioned its approval of the regulations upon the Department's use of them as voluntary. The voluntary nature of these regulations is set forth in § 001.02 of all four regulations. "There is no requirement for school districts to adopt standards."

Pursuant to § 79-760, the Department is required to implement a statewide assessment program and public schools are required to participate in the program. Section 79-760 also requires that the aggregate results for each school district be reported to the Department.

The purposes for implementation of the assessment program are:

> (a) Evaluate whether or not students in a school system have acquired skills and knowledge which allow them to meet or exceed academic standards established by the state board;
> (b) Measure progress of students in a school system toward meeting academic standards established by the state board.
> (c) Provide information for analysis of adopted standards and consideration of new standards;
> (d) Allow comparisons to be made between the academic achievement of students in a local system and students in another Nebraska local system; and
> (e) Allow comparisons to be made between the academic achievement of Nebraska students with the academic achievement of students in other states.

Neb. Rev. Stat. § 79-760(2) (Cum. Supp. 1998).

Analysis

We agree that § 79-760 requires school districts to assess their students using an assessment developed by the Department based on standards established by the Department. We also agree that § 79-760 does not explicitly state that school districts must adopt and implement the Department's academic standards, nor does it require the Department to enforce those standards.

However, the purpose for the annual assessment testing as stated in § 79-760, the legislative history and the Department's assessment materials all indicate that the goal is to measure student progress toward meeting or exceeding the Department's academic standards. How can one make progress toward a standard without incorporating that standard into the curriculum? Other purposes identified in § 79-760 make various comparisons of the academic achievement of Nebraska students and academic achievement is equated with the extent to which students have mastered the academic standards upon which they are tested. Clearly, § 79-760 uses the academic standards upon which students are tested as a basis for determining the performance of public schools and the quality of public education in Nebraska.

There are numerous references in the legislative history to the purposes or goals for conducting assessment testing. Statements before the Committee on Education include the following. "The purpose of the testing is to ensure accountability for student achievement and to measure individual student progress toward academic standards." Introducer's Statement of Intent on L.B. 1228, 95th Leg., 2nd Sess. 2 (Feb. 2, 1998) (statement of Sen. Bohlke). "That would be the statewide test, what I called the accountability test, the assessment and the accountability." Hearing on L.B. 1228 Before the Comm. on Educ., 95th Leg., 2nd Sess. 8 (Feb. 2, 1998) (statement of Sen. Bohlke). "I could even see it coming to the point where we could sell a floppy disk of the information and you could take it as a study group, at the local level, and study whether or not you're in line with what other school districts in the state are doing. . . ." Hearing on L.B. 1228 Before the Comm. on Educ., 95th Leg., 2nd Sess. 8 (Feb. 2, 1998) (statement of Kathleen McCallister, President of the State Board of Education). "The intention would be that there is some measurement that we agree on for a particular subject or a particular grade level so that the notion of comparison of districts in the sense that we want to benchmark ourself against the high-performing district, how do they do what they do and get such high scores in reading?" Hearing on L.B. 1228 Before the Comm. on Educ., 95th Leg., 2nd Sess. 8 (Feb. 2, 1998) (statement of Doug Christiansen, Commissioner of Education). "The purpose of the testing is to ensure accountability for student achievement and to measure individual student progress toward academic standards. The test shall be designed to compare achievement on a statewide and national basis and to enable teachers to evaluate performance of students." Committee Statement for L.B. 1228, 95th Leg., 2nd Sess. 3 (Feb. 2, 1998) (Comm. on Educ.).

There were some brief discussions of the assessment testing portion of L.B. 1228 on the floor of the legislature. "The important thing is having it correlated to our standards that we've adopted, and if they do that, I think it would be close enough to those standards that's really getting at what we're trying to with the bill, and that is to make sure that we have a common reporting and know that schools are working toward those standards and the quality indicators here in the bill." Floor Debate on L.B. 1228, 95th Leg., 2nd Sess. 13809-10 (Mar. 18, 1998) (statement of Sen. Bohlke).

> Senator Crosby, members of the Legislature, we are spending several million dollars developing a statewide test, and the reason that we're doing that, in part, a large part, is to restore the confidence of the public in the education system. And one of the things that has grieved the public, I believe, is their inability to compare school districts, schools within their districts, no means by which to do that, in any sort of realistic way. There is . . . there is no point to spending all this money and having all these requirements if, in fact, the result of what you're doing does not give the public the kind of comparison information that they're asking for."

Floor Debate on L.B. 1228, 95th Leg., 2nd Sess. 13809-10 (Mar. 18, 1998) (statement of Sen. Beutler).

Although § 79-760 does not explicitly state that public schools are required to adopt the academic standards upon which their students are tested, the practical effect of § 79-760 is to impose those standards upon the schools. We see no other purpose which would be served by the assessment testing. The intent of § 79-760 is that schools would focus on teaching its students the substance of the academic standards and their progress toward achieving that goal would be measured on an annual basis through assessment testing. Therefore, it would inappropriate for the Department to conduct assessment testing on academic standards which are unconstitutionally vague.

You also ask whether rating the schools on the basis of their aggregate test results, with no legal consequences attached, would constitute a legal reward or sanction necessitating that the Department's standards be mandatory and specific. We have previously stated that the Department cannot test on the four content standard regulations since they contain unconstitutionally vague language. We find no statutory language requiring that the standards be mandatory in order for the Department to implement the assessment testing. We do not consider rating school performance on the assessment testing to be a legal reward or sanction. Although schools are required to participate in the assessment testing, the Department does not have any enforcement authority at this time.

Conclusion

The legislature has the authority to mandate assessment testing based on academic standards. However, the current standards may not be used for that purpose because they are unconstitutionally vague. This problem could be resolved by the State Board of Education by adopting standards that are not unconstitutionally vague. Although the Department cannot test on the four content standard regulations since they contain unconstitutionally vague language, we find no statutory language requiring that the standards be mandatory in order for the Department to implement the assessment testing. We do not consider rating school performance on the assessment testing to be a legal reward or sanction.

Sincerely,
DON STENBERG

AM2847

(Amendments to Standing Committee amendments, AM2432)

1. Insert the following new sections:

"Sec. 2. Section 18-2601, Reissue Revised Statutes of Nebraska, is amended to read:

18-2601. Sections 18-2601 to 18-2608 and section 8 of this act shall be known and may be cited as the Municipal Infrastructure Redevelopment Fund Act.

Sec. 3. Section 18-2602, Reissue Revised Statutes of Nebraska, is amended to read:

18-2602. The Legislature finds that the municipalities of the state face an urgent need to construct, upgrade, and develop municipal infrastructure facilities. By providing basic public facilities, the municipalities of the state provide the building blocks for economic development. Not only does the investment in infrastructure generate an immediate stream of economic activity, it also lays the groundwork for private investment that will use the facilities so provided. Municipalities in the state currently are in critical need of assistance in providing these facilities.

The Legislature determines that it is in the public interest to establish a Municipal Infrastructure Redevelopment Fund to provide funds to municipalities in the state to use to provide infrastructure facilities and to permit municipalities in the state to issue bonds secured by amounts payable from the Municipal Infrastructure Redevelopment Fund and other sources.

Sec. 4. Section 18-2603, Reissue Revised Statutes of Nebraska, is amended to read:

18-2603. For purposes of the Municipal Infrastructure Redevelopment Fund Act:

(1) Bond means any evidence of indebtedness, including, but not limited to, bonds, notes including notes issued pending long-term financing arrangements, warrants, debentures, obligations under a loan agreement or a lease-purchase agreement, or any similar instrument or obligation;

(2) Fund ~~shall mean~~ means the Municipal Infrastructure Redevelopment Fund;

~~(2)~~ (3) Infrastructure project ~~shall mean~~ means any of the following projects, or any combination thereof, to be owned or operated by a municipality: Solid waste management facilities; wastewater, storm water, and water treatment works and systems, water distribution facilities, and water resources projects, including, but not limited to, pumping stations, transmission lines, and mains and their appurtenances; hazardous waste disposal systems; resource recovery systems; airports; port facilities; buildings and capital equipment used in the ~~operation~~ operations and activities of municipal government and to provide services to the residents of the municipality; convention and tourism facilities; redevelopment projects as defined in section 18-2103; and mass transit and other transportation systems, including parking facilities and excluding public highways and bridges and municipal roads, streets, and bridges;

~~(3)~~ (4) Municipal allocation amount ~~shall mean~~ means, for each municipality, the amount derived by multiplying the amount to be allocated by the fraction determined by dividing the total population of the municipality by the total population of the state living in municipalities, each as determined by the most recent federal census figures certified by the Tax Commissioner as provided in section 77-3,119; and

~~(4)~~ (5) Municipality ~~shall mean~~ means any city of any class or any village in the state.

Sec. 5. Section 18-2606, Reissue Revised Statutes of Nebraska, is amended to read:

18-2606. Money received by a municipality or credited to its account from the fund shall be used for one of the following purposes:

(1) To pay for the construction, acquisition, or equipping of infrastructure projects or portions thereof; or

(2) To pay principal, interest, premium, and costs of issuance on bonds ~~debt incurred or securities~~ issued by the municipality to finance the construction, acquisition, or equipping of infrastructure projects or portions thereof.

Sec. 6. Section 18-2607, Reissue Revised Statutes of

Nebraska, is amended to read:

18-2607. Each municipality shall be permitted to pledge the amounts on deposit or to be deposited in its account of the fund, as and when appropriated by the Legislature, to the holders of any bonds ~~debt incurred or securities~~ issued by the municipality to finance the construction, acquisition, or equipping of infrastructure projects as long as the lien of such pledge does not attach until funds are actually deposited into the municipality's account, and in no event shall such a pledge be construed as an obligation of the Legislature to appropriate such funds. Any such pledge shall be valid and binding from the time when the pledge is made. The money so pledged and thereafter received by the municipality or deposited into its respective account shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the municipality, irrespective of whether the parties have notice thereof. Neither the resolution nor any other instrument by which a pledge is created need be recorded.

Sec. 7. Section 18-2608, Reissue Revised Statutes of Nebraska, is amended to read:

18-2608. No ~~securities~~ bonds issued by any municipality ~~and pledging~~ which pledges funds to be deposited in its account of the fund shall constitute a debt, liability, or general obligation of this state or a pledge of the faith and credit of this state but shall be payable, to the extent payable from state revenue, solely from amounts credited to the accounts of the fund as provided by the Municipal Infrastructure Redevelopment Fund Act, as and when appropriated by the Legislature. Each ~~security~~ bond issued by any municipality ~~and pledging~~ which pledges funds to be deposited in its account of the fund shall contain on the face thereof a statement that neither the faith and credit nor the taxing power of this state is pledged to the payment of the principal of or the interest on such security.

Sec. 8. Any municipality may by ordinance issue bonds in one or more series for the construction or acquisition of an infrastructure project or any portion thereof and pay the principal of and interest on any such bonds by pledging funds received from the Municipal Infrastructure Redevelopment Fund. Such bonds shall have a final maturity not later than August 1, 2009, and the aggregate debt service payments and related expenses with respect to all series of such bonds for any twelve-month period during which such bonds are outstanding shall not exceed the anticipated receipts from the fund by such municipality. For purposes of this section, anticipated receipts means the amount received by the municipality from the fund for the twelve-month period immediately preceding the date of issuance of such bonds.

Any municipality which has or may issue bonds under this section may dedicate a portion of its property tax levy authority as provided in section 77-3442 to meet debt service obligations under the bonds, but only to the extent the receipts from the fund pledged to the payment of such bonds and any other money made available and used for that purpose are insufficient to pay the principal of and interest on such bonds as they mature.

Sec. 26. Section 77-3,119, Revised Statutes Supplement, 1998, is amended to read:

77-3,119. (1) The Tax Commissioner shall certify the population of cities and villages to be used for purposes of calculations made pursuant to subdivision ~~(3)~~ (4) of section 18-2603, subdivisions (3)(a) and (b) of section 35-1205, subdivision (1) of section 39-2517, and sections 39-2513 and 77-27,137.01. The Tax Commissioner shall transmit copies of such certification to all interested parties upon request.

(3) The Tax Commissioner may adopt and promulgate rules and regulations to carry out this section.".

PURPOSE: The purpose of this resolution is to review the process and criteria by which members are nominated and selected for the Public Employees Retirement Board and to ensure that there is proportional representation on the Public Employees Retirement Board for each of the five retirement plans that are administered by the Nebraska Public Employees Retirement Systems. The study shall review the statutes and guidelines that govern the Public Employees Retirement Board as well as those from other states. RESOLUTION

LEGISLATIVE RESOLUTION 338. Introduced by Schimek, 27; Janssen, 15; Lynch, 13; Connealy, 16; Hilgert, 7; Bourne, 8; Bohlke, 33; Crosby, 29; Schmitt, 41; Cudaback, 36; Robak, 22.

PURPOSE: Tribal governments are searching for ways to improve conditions for their people and for their reservations. Unemployment on the reservations is extremely high, as high as seventy-three percent on one reservation alone. Tribes have little infrastructure to lure businesses to locate within reservation boundaries. Additionally, very little land on the reservation is taxable so there is a very small property tax base with which to improve conditions upon the reservations.

Issues have arisen in Nebraska which have created a struggle for basic rights of sovereignty and self-determination for Indian tribes in Nebraska. It is incumbent on the Legislature to work to resolve these issues and to develop an understanding of cooperation and co-existence between the tribes of Nebraska and the government of Nebraska.

The Legislature shall conduct a study which shall include, but not be limited to:

1. An analysis of tribal sovereignty and its relationship to the federal government, state government, and local communities;
2. A review of economic development on Indian lands within Nebraska,

specifically what economic development initiatives have occurred on reservation lands in the last fifteen years;

3. A review of the positive fiscal impact that gambling has had on reservations around the country, as well as negative impacts that may occur on reservation lands or in the surrounding area;

4. An analysis of whether the crime rate has increased on reservations or in surrounding areas where gaming has been established; and

5. An analysis relating to the state's tax policies toward economic development and business development on tribal lands, and whether these policies impact negatively on a tribe's ability to attract businesses to the reservations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the General Affairs Committee and the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct a joint interim study to carry out the purposes of this resolution. The committees shall hold hearings on the tribal lands of each of the four Nebraska tribes.

2. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature by December 1, 2000.

Referred to the Executive Board.

A physician, chiropractor, nurse, or hospital claiming a lien under this section shall not be liable for attorney's fees and costs incurred by the injured person in securing the judgment, settlement, or compromise, but the lien of the injured person's attorney shall have precedence over the lien created by this section.

RESOLUTION

LEGISLATIVE RESOLUTION 339. Introduced by Byars, 30.

PURPOSE: Nebraska has a significant lack of persons trained or equipped to respond to emergencies involving hazardous materials. Primarily only the larger fire departments are prepared to respond to such incidents. Thus there are large geographical areas of Nebraska where there is little or no coverage for hazardous materials incidents.

There are serious liability and other consequences to this, including property damage, death and injuries to responders and others, environmental catastrophes, legal liability for damages caused by responders who respond above their level of certification and training, and criticism when they fail to respond.

Fire departments and other responders that are prepared to respond to hazardous materials emergencies should be encouraged to join with other responders in a geographical area to create cooperative regional response teams.

Municipal fire departments that are trained to respond to hazardous materials emergencies are funded by municipal sources and generally do not respond outside their jurisdictions. Because of spending and levy limits, they are financially unable to support the infrastructure of regional response teams. Smaller fire departments and other emergency response agencies do not have the financial resources to respond or to contribute to the departments that can respond.

Because of the variety of sources of hazardous materials incidents and the statewide nature of this situation, Legislative Bill 1262, Ninety-sixth Legislature, Second Session, 2000, was introduced to provide state funding for regional hazardous materials response teams. The bill was heard by the Government, Military and Veterans Affairs Committee of the Legislature. The purpose of this interim study resolution is to examine the issues raised by LB 1262, including, but not limited to:

1. The levels of response specified in federal standards and the potential liability of political subdivisions for responding to hazardous materials incidents in a manner that is not consistent with those federal standards;
2. The costs to equip, train, and maintain regional response teams

throughout the state;

3. The use of state general funds or other state funding for this purpose;
4. Any federal funds that might be available for this purpose;
5. Other possible sources of funding such as funds from the Nebraska Environmental Trust Fund, a fee on motor vehicle registrations, or a fee on residential and commercial insurance policies;
6. The appropriate state agency to administer such a program and any funding;
7. Whether political subdivisions should be required to provide a full or partial match for any funding and, if so, whether the match should be actual dollars or a soft match;
8. Whether funding should be provided for needs other than hazardous materials response such as confined space rescue, rope rescue, vehicle extrication, and response to terrorism or for equipment such as jaws-of-life units, search and rescue equipment, rope rescue equipment, and atmosphere monitors; and
9. Whether a state agency should designate the regions or whether the regions should be allowed to develop over time as political subdivisions join together to organize regional response efforts and apply for available funding.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 341. Introduced by Wickersham, 49; Wehrbein, 2.

PURPOSE: The purpose of this study is to identify all state or federal cemetery facilities available to veterans statewide and determine if they meet the current and future needs of veterans and their families. Construction and operations costs of state veterans cemeteries in Box Butte and Hall counties shall be examined. Input shall be sought from the Department of Veterans' Affairs, various veterans' organizations, and other interested parties to address these questions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 342. Introduced by Revenue Committee: Wickersham, 49, Chairperson; Bohlke, 33; Coordsen, 32; Dierks, 40; Hartnett, 45; Landis, 46; Raikes, 25; Redfield, 12.

PURPOSE: Nebraska has in place several economic development tax incentives. Most have been in operation long enough that conclusions may be drawn as to the long-term impacts of these initiatives. For example, from the date of enactment of the Employment and Investment Growth Act through the year 1999, more than $1.5 billion of credits and refunds have been earned by companies qualifying under the act, and over $1 billion of credits and refunds have been used. While the number of new jobs measured by full-time equivalents is reported to be about 60,000, detailed analysis shows that more than half of the FTE jobs are not new positions created, but are increases in hours for existing employees. Measured against employment in actual new jobs, the cost of the program is approximately $50,000 per job in credits and refunds earned, and $37,000 per job in credits and refunds used to date. Assuming that 30% of the projects would not have occurred absent the existence of the Employment and Investment Growth Act, state revenue growth due to the new business that would not be in Nebraska absent the act falls short of the amount of credits used by approximately $20 million per year.

For the Quality Jobs Act, the expected increase in state revenue is also less than the value of the benefits granted. New economic models show that, even assuming that all projects qualifying for benefits under the Quality Jobs Act would not have occurred without the benefits, the expected state revenue growth due to increased economic activity totals 15% to 50% of the foregone tax revenue over the first ten years of the project.

The revenue loss resulting from these initiatives will make it increasingly difficult to provide meaningful state tax relief for all Nebraskans in the future. In addition to the cost of these programs to the state, their presence causes changes in the economic base of the state that may or may not be desirable. New economic models show that when labor is a scarce resource, job growth in some industries or regions results in job losses in other industries or regions. Growth in areas of the state that are already growing places stress on local government infrastructure and services. This in turn means higher property taxes in those areas. Refunds of local taxes add to this difficulty and cause problems for local governments that count on stable revenue when developing budgets.

These costs and negative impacts are of concern to the Legislature. They impair our ability to meet at least two other objectives: Tax equity and tax relief for all Nebraskans.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature, together with the Department of Revenue and the Legislative Fiscal Office should undertake a review of the Employment and Investment Growth Act and the Quality Jobs Act with the goal of targeting those programs to achieve state goals more precisely. The study should make use of the Legislature's IMPLAN and CGE models in this attempt to achieve the following:

a. Businesses qualifying should be examined to limit the reach of these acts to those projects that create the most jobs, the best jobs, the most spin-off employment, and the smallest cost to the taxpayer;

b. Qualifications should be examined to minimize job losses in more rural areas of Nebraska; and

c. Procedures should be examined to allow local governments to plan and budget for the refund of or exemption from local taxes caused by these programs.

2. The Revenue Committee shall make recommendations for changes in the Employment and Investment Growth Act and the Quality Jobs Act and issue a report summarizing its recommendations to the Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 343. Introduced by Revenue Committee: Wickersham, 49, Chairperson; Bohlke, 33; Coordsen, 32; Dierks, 40; Hartnett, 45; Landis, 46; Raikes, 25; Redfield, 12.

PURPOSE: The sales tax may be the tax program that is under the most economic pressure at this point in time. In the modern economy, more and more goods and services are purchased from remote vendors both by traditional means and through the Internet. Constitutional restrictions prevent our state from enforcing a collection responsibility against remote sellers with no physical presence in the State of Nebraska. This in turn makes our tax system more and more discriminatory with regard to merchants in the state and consumers that purchase from them.

Under economic and political constraints that will continue to prevent collection of the sales tax on an equitable basis, that is, treating all purchasers of property and services the same, Nebraska may have to consider a significant change in its sales and use tax system. Among these changes could be (1) more uniformity with surrounding states with regard to base subject to tax, cumulative tax rates, and procedures for collection; (2) multi-state collection agreements; and (3) systems that minimize or even eliminate any burden borne by the seller in collecting the tax.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 344. Introduced by Revenue Committee: Wickersham, 49, Chairperson; Bohlke, 33; Coordsen, 32; Dierks, 40; Hartnett, 45; Landis, 46; Raikes, 25.

PURPOSE: The purpose of this study is to develop and examine ways in which the taxpayer appeal process through the Tax Equalization and Review Commission may be made more taxpayer friendly. The study shall examine formality, procedures, required filings, composition of the commission, administrative resources and needs, and the standard of proof to be met in appeals from a county board of equalization decision.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 345. Introduced by Revenue Committee: Wickersham, 49, Chairperson; Bohlke, 33; Coordsen, 32; Dierks, 40; Hartnett, 45; Landis, 46; Raikes, 25; Redfield, 12.

PURPOSE: The purpose of this resolution is to examine Nebraska's overall tax structure. The study shall examine the burden borne by Nebraska taxpayers in the aggregate compared to that of taxpayers in other states by various measures, and the burden on individual taxpayers as affected by exemptions from tax, tax credits, and other preferences granted to some taxpayers as compared to others. The study will examine whether tax burdens are similar for similarly situated taxpayers with a focus on tax equity. The study is to examine all of the major tax programs used in Nebraska, the exemptions, credits, and other preferences granted within those tax bases, our relative reliance on each, and the combined burden they place on Nebraska taxpayers in a variety of situations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 346. Introduced by Wickersham, 49; Redfield, 12; Raikes, 25.

PURPOSE: The purpose of this study is to examine the property tax exemption standards and procedures. The study shall examine the amount and use of exempt property in Nebraska, the differences in what might be exempt in some counties as compared to others, and the need for more definite state standards governing the granting of property tax exemptions. The study shall also examine the procedures for granting property tax exemptions. If a property tax exemption is denied, how should applicants for the tax exemption appeal the validity of the exemption as an issue separate and apart from the value placed on the property, if taxable? The study of procedures shall also determine if they adequately protect the public and give assurance that the ownership and use of the property justifies the exemption. A key issue is whether or not there is sufficient opportunity for members of the public and other interests to consider the impact exempt property has on the remaining taxpayers and have input into the process.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 347. Introduced by Redfield, 12; Wickersham, 49; Raikes, 25.

PURPOSE: The purpose of this study is to examine the personal income tax system in an effort to consider changes that would provide more equity for working couples. The nature of the Nebraska workforce has changed over the past thirty years and includes far more working couples than was true when the income tax brackets, exemptions, and deductions were developed.

The study should look at the number of Nebraska couples that benefit from a "marriage bonus" versus the number that are subject to a "marriage penalty", develop alternatives in an attempt to achieve a better balance between the two, and determine the cost of implementing alternatives. Alternatives examined should include changes in tax brackets and the standard deduction as well as alternative filing options.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 348. Introduced by Wickersham, 49.

PURPOSE: The recent United States Supreme Court decision in the case of South Central Bell Telephone Co. v. Alabama, has caused many to examine Nebraska's system of corporate occupation tax. Nebraska may want to consider reforming the tax in light of our rapidly changing economy and the implications of the Commerce Clause of the United States Constitution. This study should examine ways of achieving uniform treatment of foreign versus domestic corporations without significantly damaging the fiscal situation of the state.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 349. Introduced by Wickersham, 49.

PURPOSE: This study shall examine occupation taxes. Occupation taxes are a large and growing aspect of municipal finance. The study should determine the amount of occupation taxes collected and the role they play in financing municipal operations. The committee shall determine whether or not occupation taxes are significant enough that state law should restrict their growth as is the case with most other taxes collected by local governments.

The study should also examine whether or not counties should have a similar power to collect occupation taxes on businesses outside a municipality's taxing jurisdiction.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE

NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

Sec. 2. The Legislature finds that technology is changing the educational and training needs of employees. These changes are found in all areas of employment and are directly related to Nebraska remaining competitive in a global economy. These changes also raise employer expectations of prospective employees from all education levels, including those with a baccalaureate degree. Education and career preparation are critical because students must possess academic, communication, and technological skills needed for employment and continued lifelong learning. Therefor, there is an urgent need for quality career preparation and technical education programs in the secondary schools of Nebraska in order to assist students in:

(1) Acquiring the knowledge and skills necessary for successful entry into a career preparation program at a postsecondary educational institution or into employment;

(2) Developing skills to balance the dimensions of work, family, and community;

(3) Gaining exposure to a wide variety of careers; and

(4) Gaining experience in career paths through supervised work-based experience.

Sec. 3. The purpose of the Education and Career Preparation Act is to focus on the academic, technical, and employment skills necessary for success in a career through career preparation and technical education programs such as agricultural education, business education, career guidance and counseling, family and consumer sciences, industrial technology education, marketing education, health occupations education, and diversified occupations.

Sec. 4. (1) The Education and Career Preparation Fund is hereby created. For school fiscal year 2000-01, it is the intent of the Legislature to appropriate funds to be distributed as competitive grants to school districts and consortia of school districts by the State Board of Vocational Education pursuant to subsections (2) and (3) of this section on or before December 15, 2000. It is the intent of the Legislature to appropriate one million five hundred thousand dollars for school fiscal year 2000-01 to the fund. The fund shall be allocated in the following manner:

(a) Up to forty percent to grant recipients who are requesting a grant for the purposes of buying equipment related to career preparation and technical education;

(b) Up to thirty percent to grant recipients who are requesting a grant for the purposes of buying career preparation and technical education curriculum materials or skills assessments; and

(c) Up to thirty percent to grant recipients who are requesting a grant for the purposes of innovative career preparation and technical educational programs, such as articulation programs with postsecondary education or improved career guidance and counseling programs.

(2) To apply for a grant, each school district or consortium of school districts shall complete a grant application

and provide a curriculum support plan and a grant-matching plan. The application and plans shall be signed by the school administrator and returned to the State Department of Education on or before October 1, 2000. The curriculum support plan shall: Identify the goals and needs that will be supported by the grant; how the goals and needs are directly related to the school improvement plan or plans of the school district or the school districts in the consortium; and how the grant will be used to directly advance the goals and needs identified. The grant-matching plan shall show how the school districts or consortium of school districts will match the grant one-hundred percent, by means of: School district funds; community partnership gifts, donations, money, and services, including in-kind resources and volunteer time; or individual gifts, donations, money, and services, including in-kind resources and volunteer time. The estimated value of in-kind resources and volunteer time shall be used in calculating the amount of the applicant's matching funds. If the school district or consortium of school districts does not match the full amount of the grant within one year after receiving the grant, such school district or consortium of districts shall return the unmatched amount of the grant to the department. If the school district or consortium of school districts fails to return the unmatched grant amount within one year and six months after receiving the grant, state aid shall be withheld from each school district involved such that the total amount withheld from the school district or each school district in a consortium is equal to the unmatched grant amount.

(3) A school district or consortium of school districts shall only receive one grant. Each grant shall not exceed fifty thousand dollars. The grants to be awarded shall be selected by the State Board of Vocational Education after recommendations are received from the advisory committee pursuant to section 5 of this act.

Sec. 5. (1) Within thirty days after the effective date of this act, the Governor shall appoint an advisory committee to provide recommendations to the State Board of Vocational Education for the awarding of grants. The membership of the advisory committee shall consist of:

(a) The program manager for vocational education of the State Department of Education;

(b) One representative from business;

(c) One representative of labor;

(d) One school administrator;

(e) One teacher currently involved in career preparation and technical education programs;

The recommendations must be given to the State Board of Vocational Education on or before November 15, 2000. The advisory committee terminates on December 31, 2000.

Sec. 6. The State Department of Education shall develop applications for the grants and distribute such applications on or before August 1, 2000.

LEGISLATIVE RESOLUTION 368. Introduced by Hudkins, 21.

PURPOSE: This interim study will examine the current state statutes dealing with ground water transfers from overlying lands to determine whether or not Nebraska law makes adequate provisions for small private transfers of ground water for domestic use on farmsteads and acreage residential developments.

The Legislature has already addressed statutorily domestic transfers of ground water for public water supplies, as well as for industrial and agricultural purposes and ground water remediation plans. The question has arisen, however, as to the possible need for additional statutory provisions to permit small private ground water transfers for domestic uses on farmsteads and acreage residential developments, which have traditionally been carried out through ground water well and pipeline easements. Should the study reveal that such a need exists, the appropriate statutory language should be prepared for introduction during the subsequent legislative session.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

Sec. 3. Section 18-2601, Reissue Revised Statutes of Nebraska, is amended to read:

18-2601. Sections 18-2601 to 18-2608 and section 9 of this act shall be known and may be cited as the Municipal Infrastructure Redevelopment Fund Act.

Sec. 4. Section 18-2602, Reissue Revised Statutes of Nebraska, is amended to read:

18-2602. The Legislature finds that the municipalities of the state face an urgent need to construct, upgrade, and develop municipal infrastructure facilities. By providing basic public facilities, the municipalities of the state provide the building blocks for economic development. Not only does the investment in infrastructure generate an immediate stream of economic activity, it also lays the groundwork for private investment that will use the facilities so provided. Municipalities in the state currently are in critical need of assistance in providing these facilities.

The Legislature determines that it is in the public interest to establish a Municipal Infrastructure Redevelopment Fund to provide funds to municipalities in the state to use to provide infrastructure facilities and to permit municipalities in the state to issue bonds secured by amounts payable from the Municipal Infrastructure Redevelopment Fund and other sources.

Sec. 5. Section 18-2603, Reissue Revised Statutes of Nebraska, is amended to read:

18-2603. For purposes of the Municipal Infrastructure Redevelopment Fund Act:

~~(3)~~ (4) Municipal allocation amount ~~shall~~ ~~mean~~ means, for each municipality, the amount derived by multiplying the amount to be allocated by the fraction determined by dividing the total population of the municipality by the total population of the state living in municipalities, each as determined by the most recent federal census figures certified by the Tax Commissioner as provided in section 77-3,119; and

~~(4)~~ (5) Municipality ~~shall~~ ~~mean~~ means any city of any class or any village in the state.

Sec. 6. Section 18-2606, Reissue Revised Statutes of Nebraska, is amended to read:

18-2606. Money received by a municipality or credited to its account from the fund shall be used for one of the following purposes:

(1) To pay for the construction, acquisition, or equipping of infrastructure projects or portions thereof; or

(2) To pay principal, interest, premium, and costs of issuance on bonds ~~debt~~ ~~incurred~~ ~~or~~ ~~securities~~ issued by the municipality to finance the construction, acquisition, or equipping of infrastructure projects or portions thereof.

Sec. 7. Section 18-2607, Reissue Revised Statutes of Nebraska, is amended to read:

18-2607. Each municipality shall be permitted to pledge the amounts on deposit or to be deposited in its account of the fund, as and when appropriated by the Legislature, to the holders of any bonds ~~debt~~ ~~incurred~~ ~~or~~ ~~securities~~ issued by the municipality to finance the construction, acquisition, or equipping of infrastructure projects as long as the lien of such pledge does not attach until funds are actually deposited into the municipality's account, and in no event shall such a pledge be construed as an obligation of the Legislature to appropriate such funds. Any such pledge shall be valid and binding from the time when the pledge is made. The money so pledged and thereafter received by the municipality or deposited into its respective account shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the municipality, irrespective of whether the parties have notice thereof. Neither the resolution nor any other instrument by which a pledge is created need be recorded.

Sec. 8. Section 18-2608, Reissue Revised Statutes of Nebraska, is amended to read:

18-2608. No ~~securities~~ bonds issued by any municipality ~~and pledging~~ which pledges funds to be deposited in its account of the fund shall constitute a debt, liability, or general obligation of this state or a pledge of the faith and credit of this state but shall be payable, to the extent payable from state revenue, solely from amounts credited to the accounts of the fund as provided by the Municipal Infrastructure Redevelopment Fund Act, as and when appropriated by the Legislature. Each ~~security~~ bond issued by any municipality ~~and pledging~~ which pledges funds to be deposited in its account of the fund shall contain on the face thereof a statement that neither the faith and credit nor the taxing power of this state is pledged to the payment of the principal of or the interest on such security.

Sec. 9. Any municipality may by ordinance issue bonds in one or more series for the construction or acquisition of an infrastructure project or any portion thereof and pay the principal of and interest on any such bonds by pledging funds received from the Municipal Infrastructure Redevelopment Fund. Such bonds shall have a final maturity not later than August 1, 2009, and the aggregate debt service payments and related expenses with respect to all series of such bonds for any twelve-month period during which such bonds are outstanding shall not exceed the anticipated receipts from the fund by such municipality. For purposes of this section, anticipated receipts means the amount received by the municipality from the fund for the twelve-month period immediately preceding the date of issuance of such bonds.

Any municipality which has or may issue bonds under this section may dedicate a portion of its property tax levy authority as provided in section 77-3442 to meet debt service obligations under the bonds, but only to the extent the receipts from the fund pledged to the payment of such bonds and any other money made available and used for that purpose are insufficient to pay the principal of and interest on such bonds as they mature.

Sec. 27. Section 77-3,119, Revised Statutes Supplement, 1998, is amended to read:

77-3,119. (1) The Tax Commissioner shall certify the population of cities and villages to be used for purposes of calculations made pursuant to subdivision ~~(3)~~ (4) of section 18-2603, subdivisions (3)(a) and (b) of section 35-1205, subdivision (1) of section 39-2517, and sections 39-2513 and 77-27,137.01. LEGISLATIVE RESOLUTION 396. Introduced by Thompson, 14.

PURPOSE: The Nebraska Juvenile Services Master Plan found that, in an analysis of youth in juvenile correctional facilities in 1999, Nebraska's rate of incarceration in state-operated juvenile correctional facilities was substantially higher than its comparison states. Specifically, it found that Nebraska has a much higher percentage of girls in juvenile correctional facilities at 27.1% versus 12.8% for its peer states, and the offenses for which the girls are committed are less serious than those of their male counterparts. The purpose of this study is to examine the reasons behind this disparity and to make recommendations regarding what steps can be taken to decrease this high incarceration rate.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 397. Introduced by Thompson, 14.

PURPOSE: Research findings continue to identify public health concerns about the effects of environmental tobacco smoke (ETS) on public health. This study shall examine the effects of ETS on Nebraska children, the effects of ETS on Nebraskans with respiratory disease, heart disease, and other diseases, the health risks related to public exposure of ETS, and the effectiveness of barriers and ventilation systems aimed at decreasing the negative effects of ETS.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 398. Introduced by Thompson, 14.

PURPOSE: The purpose of this study is to examine the feasibility of establishing an organ and tissue donor registry. Currently, Nebraska allows drivers to indicate their desire to donate organs and tissue as part of the driver's license application process. The information is not maintained or made available in a statewide computer data base. Allowing medical and organ retrieval personnel to access this information for families of patients who are possible organ and tissue donors could increase the number of donations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 399. Introduced by Thompson, 14.

PURPOSE: The purpose of this study is to examine the costs associated with the use of immunosuppressive medications (anti-rejection drugs) by organ transplant recipients. The study should review:

1. The current Medicare coverage for these medications;
2. The cost to Medicare for immunosuppressive drugs for kidney transplant recipients compared to the health care costs for dialysis patients;

3. The options available to and costs involved with patients who have private health insurance benefits;
4. Federal legislative efforts aimed at providing additional coverage for such patients; and
5. Options available to the State of Nebraska to positively impact the lives of transplant recipients.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 400. Introduced by Thompson, 14; Suttle, 10.

PURPOSE: The purpose of this study is the development of Children's Services Councils in Nebraska. Children's Services Councils are county programs created by a vote of the people granting the authority to levy an ad valorem tax for children's services. This county program would provide a funding resource for children's services such as child care, youth development, mentoring, child abuse and neglect prevention and intervention services, and health services. This study would review the effectiveness of existing programs in other states and legislative action needed to develop these councils in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 401. Introduced by Landis, 46.

PURPOSE: The purpose of this resolution is to study whether Nebraska should adopt the Uniform Principal and Income Act (1997) in place of Nebraska's version of the 1962 uniform act on this subject.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out

the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 405. Introduced by Landis, 46.

PURPOSE: The purpose of this resolution is to study the provisions of the Public Funds Deposit Security Act, including a review of issues regarding the pooling of securities by a depository bank or capital stock financial institution to secure the deposit of public funds of one or more governmental units, to determine what changes and clarification in the law would be appropriate.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

LEGISLATIVE RESOLUTION 406. Introduced by Hilgert, 7; Quandahl, 31.

PURPOSE: In the years following the end of the Gulf War of 1991, some military personnel began to exhibit certain symptoms that have come to be known as Gulf War Syndrome. Many states have chosen to address this affliction in different ways.

The purpose of this resolution is to initiate an examination of what the State of Nebraska can do relative to Gulf War Syndrome. The examination should include, but not be limited to: (1) What other states currently do in this subject, (2) the possible establishment of a commission to provide assistance to Gulf War veterans in obtaining services, (3) whether a more substantive survey on the Gulf War Syndrome is needed and what agency should be responsible for conducting such survey, and (4) any other issues the committee determines are relevant to the study of this subject.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 407. Introduced by Hilgert, 7.

PURPOSE: The purpose of this resolution is to examine the possibility of creating a program in Nebraska by which unwanted infants (up to seventy-two hours old) could be left with a hospital in a confidential and safe manner. The study should include, but not be limited to: (1) An examination of such a program currently utilized in Minnesota, (2) how often infants are abandoned in Nebraska, (3) need for such program, (4) the best method for implementation of such program, (5) what facilities would be best equipped to handle such program, and (6) any other issues the committee determines are relevant to the study of this subject.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 408. Introduced by Hilgert, 7.

PURPOSE: The purpose of this resolution is to study the possibility of allowing triple-trailer towing in Nebraska. The study should include, but not be limited to: (1) An examination of what other states currently authorize the towing of triple trailers, (2) what restrictions, including restrictions on length, safety, and drivers, that other states have for triple-trailer towing, (3) what businesses or organizations currently located in Nebraska would benefit from this authorization, (4) the status of the federal freeze on the length of vehicles, and (5) any other issues the committee determines are relevant to the study of this subject.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 409. Introduced by Hartnett, 45.

PURPOSE: Since 1980, with the adoption of the Nebraska Visitors

Development Act, counties in Nebraska have been authorized to collect a lodging tax of two percent on hotel and motel occupancy charges to create funding for promotional activities to encourage tourism in the area. Since 1989, Douglas County has been authorized to collect up to an additional two percent and can use the funds collected to improve visitor attractions and facilities in the county.

LB 847 was introduced in the 1999 legislative session (and heard by the Government, Military and Veterans Affairs Committee of the Legislature) and LB 1303 was introduced in the 2000 legislative session. Both bills would authorize additional counties to exercise the authority granted to Douglas County (without authorizing any additional tax increases).

This study would investigate the current status of the lodging tax, the amount of revenue it generates, and the manner in which that revenue is used. It would endeavor to determine the appropriate rationale, if such can be done, for permitting these funds to be devoted to capital improvement purposes and would seek to establish if, in the interests of good public policy and in accomplishing the stated goals of the act, additional changes should be made.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 410. Introduced by Hartnett, 45.

PURPOSE: This study, following a fifteen-year tradition, will provide the opportunity for the Urban Affairs Committee to investigate and review matters and issues arising during the interim which are within the jurisdiction of the committee, and which may be the subject of bills to be introduced in the 2001 legislative session. This provides the opportunity for a careful review of proposed legislation and the drafting of such legislation before time constraints and the pace of legislative activity makes studied review more problematic. This process has also served to facilitate a review of bills during the session and has helped the committee avoid the need for committee amendments which slow down the consideration of bills by the Legislature.

This study will involve:

(1) A review of legislation considered by the Urban Affairs Committee during the 2000 legislative session which was either killed by the committee or held in committee to determine what other further action might be warranted with regard to the particular subjects of the individual bills;

(2) A review of problems, concerns, or legislation proposed for introduction by senators or other parties for study, technical discussion, or

conceptual refinement before the start of the next legislative session; and

(3) The conducting of at least one public hearing to provide an opportunity for public comment and discussion with members of the committee and the public on issues involving matters within the committee's jurisdiction.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 411. Introduced by Hartnett, 45.

PURPOSE: In consequence of the amendment to Article VIII, section 1, of the Constitution of Nebraska, enacted in 1998, and the changes made in LB 142 (1999), both of which mandate that motor vehicle taxes go solely to municipalities, counties, and school districts, sanitary and improvement districts have lost a significant portion of the tax revenue that they have relied upon in the past. The result will be significantly higher property tax levies for residents and property owners in those districts.

In the 2000 legislative session, the Urban Affairs Committee considered two bills (LB 1301 and LB 1320) which sought to provide additional revenue to sanitary and improvement districts for street and road construction and maintenance or to remove certain of their responsibilities and transfer them to the counties. It became clear from public hearings on the bills that additional research and discussion on the issue would be necessary.

The purpose of this study will be to investigate other potential sources of revenue for sanitary and improvement districts or to develop other strategies aimed at minimizing the amount of lost revenue and preventing property tax increases in such districts.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 412. Introduced by Hartnett, 45.

PURPOSE: In LB 674, enacted in 1999, provisions were adopted to insure that the value of the benefits paid to Nebraska State Patrol retirees would be equivalent to sixty percent of the original annuity as adjusted for consumer price index changes since the commencement date of the annuity.

The purpose of this study will be to determine the impact of the changes made by LB 674 and to provide an opportunity to inquire into the status of the benefits to be provided to long-term retirees and to determine if additional adjustments should be made. The study will seek to receive additional information from retirees and to determine the most appropriate legislation for recommendation to the Legislature in the 2001 legislative session to insure adequate retirement benefits for such retirees.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Nebraska Retirement Systems Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 413. Introduced by Hartnett, 45.

PURPOSE: State law gives authority to cities and villages to adopt building codes, plumbing codes, electrical codes, fire prevention codes, and other codes relating to building and construction. Under state law, cities and villages that adopt building codes are required to adopt the Uniform Building Code and can make modifications to accommodate local conditions. The three model building code organizations, including the organization that developed the Uniform Building Code, have engaged in a process to unify, coordinate, and integrate the various building codes and have completed the 2000 International Codes to replace these existing building codes. This development needs to be studied by the Legislature to address questions about whether cities and villages should adopt some or all of the 2000 International Codes as their building codes, what options are available to cities and villages, and what state laws need to be amended to accommodate such changes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 414. Introduced by Hartnett, 45.

PURPOSE: In 1993, the Legislature authorized a two-year task force study of historic preservation. The task force included broad professional and public membership, including representatives of diverse public organizations having an interest in public preservation. The task force met in public forums across the state to solicit input on all aspects of historic preservation and, in addition, commissioned a University of Nebraska-Lincoln Nebraska Social Indicators Survey that indicated 98% of Nebraskans felt historic preservation was important, 90% felt historic preservation is important to public officials who are responsible for tourism and economic development, and 74% felt government should help pay for historic preservation.

The findings and recommendations of the task force were presented to the Legislature in 1995. A primary recommendation included the need for the development of a wide range of economic incentives to preserve Nebraska's historic places.

Nebraska currently is one of only four states in the nation that offers no preservation incentive, although historic preservation is recognized as an important component in housing and neighborhood redevelopment, commercial and "main street" revitalization, and tourism enhancement in our state.

This study would up-date the work of the task force, compile additional information on the various strategies for providing economic and tax incentives, determine the most efficient, economical, and effective means for encouraging historical preservation, and provide a rationale for its adoption.

This study shall be conducted in cooperation with the Nebraska State Historical Society.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue and Urban Affairs Committees of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 415. Introduced by Brashear, 4.

PURPOSE: An individual who is the subject of a bankruptcy proceeding may protect some of his or her earnings pursuant to section 25-1558 which limits garnishment on earnings from personal services. The purpose of this study is to determine whether the definition of "earnings", which is defined in part as "compensation paid or payable for personal services", should be amended in order to prevent the unintended sheltering of money.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE

NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:
1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 416. Introduced by Brashear, 4; Dierks, 40.

PURPOSE: To conduct a study of civil protective custody statutes and procedure as such statutes and procedure relate to individuals who are intoxicated and dangerous to themselves or others. The study should include, but not be limited to, an examination of detoxification facilities and their ability to handle persons dangerous to themselves or others, as well as an examination of the availability of facilities across the state which are able to treat such individuals.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:
1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 417. Introduced by Brashear, 4; Dw. Pedersen, 39.

PURPOSE: To conduct a study of community corrections in Nebraska. The study should include, but is not limited to, an evaluation of the effectiveness and efficiency of community corrections. Following evaluation, recommendations should be made, if necessary, to improve any programmatic or systemic problems with the current system.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:
1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

AMENDMENTS - Print in Journal

Senator Thompson filed the following amendment to LB 1167:
AM3079
(Amendments to Standing Committee amendments, AM2678)

1. Strike section 19 and insert the following section:

"Sec. 19. Section 43-286, Reissue Revised Statutes of Nebraska, is amended to read:

43-286. (1) When any juvenile is adjudicated to be a juvenile described in subdivision (1), (2), or (4) of section 43-247:

(a) The court may continue the dispositional portion of the hearing, from time to time upon such terms and conditions as the court may prescribe, including an order of restitution of any property stolen or damaged or an order requiring the juvenile to participate in community service programs, if such order is in the interest of the juvenile's reformation or rehabilitation, and, subject to the further order of the court, may:

(i) Place the juvenile on probation subject to the supervision of a probation officer;

(ii) Permit the juvenile to remain in his or her own home or be placed in a suitable family home, subject to the supervision of the probation officer; or

(iii) Cause the juvenile to be placed in a suitable family home or institution, subject to the supervision of the probation officer. If the court has committed the juvenile to the care and custody of the Department of Health and Human Services, the department shall pay the costs of the suitable family home or institution which are not otherwise paid by the juvenile's parents.

Under subdivision (1)(a) of this section, upon a determination by the court that there are no parental, private, or other public funds available for the care, custody, and maintenance of a juvenile, the court may order a reasonable sum for the care, custody, and maintenance of the juvenile to be paid out of a fund which shall be appropriated annually by the county where the petition is filed until a suitable provision may be made for the juvenile without such payment; or

(b) The court may commit such juvenile to the Office of Juvenile Services, but a juvenile under the age of twelve years shall not be placed at the Youth Rehabilitation and Treatment Center-Geneva or the Youth Rehabilitation and Treatment Center-Kearney unless he or she has violated the terms of probation or has committed an additional offense and the court finds that the interests of the juvenile and the welfare of the community demand his or her commitment. This minimum age provision shall not apply if the act in question is murder or manslaughter.

(2) When any juvenile is found by the court to be a juvenile described in subdivision (3)(b) of section 43-247, the court may enter such order as it is empowered to enter under subdivision (1)(a) of this section or enter an order committing or placing the juvenile to the care and custody of the Department of Health and Human Services.

(3) Beginning July 15, 1998, when any juvenile is adjudicated to be a juvenile described in subdivision (1), (2),

(3)(b), or (4) of section 43-247 because of a nonviolent act or acts and the juvenile has not previously been adjudicated to be such a juvenile because of a violent act or acts, the court may, with the agreement of the victim, order the juvenile to attend juvenile offender and victim mediation with a mediator or at an approved center selected from the roster made available pursuant to section 25-2908.

(4)(a) When a juvenile is placed on probation or under the supervision of the court and it is alleged that the juvenile is again a juvenile described in subdivision (1), (2), (3)(b), or (4) of section 43-247, a petition may be filed and the same procedure followed and rights given at a hearing on the original petition. If an adjudication is made that the allegations of the petition are true, the court may make any disposition authorized by this section for such adjudications.

(b) When a juvenile is placed on probation or under the supervision of the court for conduct under subdivision (1), (2), (3)(b), or (4) of section 43-247 and it is alleged that the juvenile has violated a term of probation or supervision or that the juvenile has violated an order of the court, a motion to revoke probation or supervision or to change the disposition may be filed and proceedings held as follows:

(i) The motion shall set forth specific factual allegations of the alleged violations and a copy of such motion shall be served on all persons required to be served by sections 43-262 to 43-267;

(ii) The juvenile shall be entitled to a hearing before the court to determine the validity of the allegations. At such hearing the juvenile shall be entitled to those rights relating to counsel provided by section 43-272 and those rights relating to detention provided by sections 43-254 to 43-256. The juvenile shall also be entitled to speak and present documents, witnesses, or other evidence on his or her own behalf. He or she may confront persons who have given adverse information concerning the alleged violations, may cross-examine such persons, and may show that he or she did not violate the conditions of his or her probation or, if he or she did, that mitigating circumstances suggest that the violation does not warrant revocation. The revocation hearing shall be held within a reasonable time after the juvenile is taken into custody;

(iii) The hearing shall be conducted in an informal manner and shall be flexible enough to consider evidence, including letters, affidavits, and other material, that would not be admissible in an adversarial criminal trial;

(iv) The juvenile shall be given a preliminary hearing in all cases when the juvenile is confined, detained, or otherwise significantly deprived of his or her liberty as a result of his or her alleged violation of probation. Such preliminary hearing shall be held before an impartial person other than his or her probation officer or any person directly involved with the case. If as a result of such preliminary hearing probable cause is found to exist, the juvenile shall be entitled to a hearing before the court in accordance with this subsection;

(v) If the juvenile is found by the court to have violated the terms of his or her probation, the court may modify the terms and conditions of the probation order, extend the period of probation, or enter any order of disposition that could have been made at the time the original order of probation was entered; and

(vi) In cases when the court revokes probation, it shall enter a written statement as to the evidence relied on and the reasons for revocation.".

RESOLUTIONS

LEGISLATIVE RESOLUTION 418. Introduced by Schrock, 38.

PURPOSE: To study the feasibility of providing compensation from the Nebraska Environmental Trust Fund to individuals engaged in agriculture for the development of buffer strips to minimize potential pollution problems.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 419. Introduced by Dw. Pedersen, 39.

PURPOSE: To examine the issuance of message plates. Year after year the Legislature is flooded with proposals to have special license plates for various groups. The Legislature should study the feasibility of issuing a generic message plate with a space for a decal or similar tag that could be purchased and attached indicating support for these groups. The study should investigate options, possible costs, and fees for such a license plate.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 420. Introduced by Beutler, 28.

PURPOSE: To examine implementation and funding authority for municipalities to comply with the federal mandate imposing responsibility on many Nebraska municipalities to develop and implement storm water management programs.

In 1972, Congress amended the Clean Water Act (CWA) to prohibit discharge of any pollutant to waters unless the discharge is authorized by a permit. Subsequently, the federal Environmental Protection Agency (EPA) found that "storm water runoff from lands modified by human activities can harm surface water resources and, in turn, cause or contribute to . . . (the exceeding) of water quality standards by changing natural hydrologic patterns, accelerating stream flows, destroying aquatic habitat, and elevating pollutant concentrations and loadings." In 1987, Congress amended the CWA to regulate storm water discharge. Under the storm water program, the EPA is responsible for monitoring and reporting the effect of storm water discharge on water quality in streams and for conducting programs in public education and outreach concerning such discharge.

In 1990, the EPA adopted regulations for Phase I of the storm water program. Phase I requires municipalities with populations in excess of 100,000 to obtain a permit for any storm water discharge. On December 8, 1999, the EPA adopted Phase II regulations which expand this permit requirement to smaller municipalities that meet certain urbanized characteristics.

This study shall include: (1) A review of the requirements of 40 C.F.R. parts 122 to 124 and 64 Fed. Reg. 68722 (Dec. 8, 1999) as they relate to development and implementation of storm water management programs by Nebraska municipalities, (2) a determination of technical resources available to aid Nebraska municipalities in such program development and implementation, (3) an examination of funding alternatives for such program development and implementation, and (4) any other topic deemed necessary by the committee to carry out the purposes of this resolution.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 421. Introduced by Jones, 43; Bromm, 23.

PURPOSE: The purpose of this resolution is to study the issues surrounding the prevention of fires near railroad tracks.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 422. Introduced by Jones, 43; Bromm, 23.

PURPOSE: The purpose of this resolution is to study the issues surrounding the time frame in which claims against railroads are accepted and denied.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 423. Introduced by Matzke, 47; Wehrbein, 2; D. Pederson, 42.

PURPOSE: The purpose of this resolution is to review the extent to which office and other space is leased to house agencies of state government, particularly in Lincoln, Nebraska, and to consider alternatives for accommodating state agency space needs currently met with leased space. Consideration of alternatives shall include an analysis of the feasibility, expediency, and financial prudence of constructing a facility to centrally accommodate multiple state agency functions that are currently dispersed across numerous leased sites. The review shall include the identification of current premises leased, the quantity of space leased, and the lease terms and costs incurred relative to leased premises. The review shall also include a preliminary estimation of the probable costs to construct a facility to house multiple state agency functions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

GENERAL FILE

LEGISLATIVE BILL 812. Senator Beutler withdrew his amendment, AM2892, found on page 1157 and considered on page 1264.

Senator Beutler offered the following amendment:
AM3090

1. Insert the following new section:

The State Department of Education shall adopt and promulgate appropriate rules and regulations to insure the rigor of the measurable quality academic content standards.".
2. Renumber the remaining sections accordingly.

RESOLUTIONS

LEGISLATIVE RESOLUTION 424. Introduced by Bromm, 23; Thompson, 14; Hartnett, 45; Bruning, 3; Byars, 30.

PURPOSE: In 1988, the Department of Roads published the Nebraska Highway Needs Study. This was the result of the passage of legislation that called for a study and a continuing procedure for reporting annually to the Legislature on the state's highway needs and the department's planning and programming. The 1988 Nebraska Highway Needs Study considered the current and future highway needs in Nebraska.

Since 1988, Nebraska has seen considerable changes in population, traffic, and state and federal funding policies and priorities. It is beneficial to implement a study to review these changes and to examine how they have affected the current and future needs of Nebraska's transportation system and to determine if a full review and comprehensive revision of the previous study is necessary. If a revision of the 1988 study is determined to be necessary, the criteria and data on which that study was based should also be reviewed in order to determine if there are any additional criteria or data that should be considered for determining and funding future highway projects.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 425. Introduced by Bruning, 3.

PURPOSE: The purpose of this resolution is to authorize a study of the issues raised by Legislative Bill 1246, Ninety-sixth Legislature, Second Session, dealing with annexation of territory within a Class III school district by another school district. In particular, the study shall look at the effects on small or rural school districts of the changes proposed by LB 1246.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 426. Introduced by Dw. Pedersen, 39.

PURPOSE: To determine appropriate enforcement mechanisms for privately posted speed limits on private property. Such privately posted speed limits are commonly found in mall parking lots and other privately owned facilities playing host to a large number of vehicles. City or county law enforcement officers lack the authority to enforce such speed limits on private property. Conversely, security personnel hired by property owners lack the authority to give tickets or impose fines. This study should examine the current law to determine if enforcement mechanisms are currently available and, if not, examine alternatives to enable such privately posted speed limits to be enforced.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 427. Introduced by Engel, 17; Matzke, 47; Brown, 6; Quandahl, 31.

PURPOSE: The purpose of this study is to investigate the issues raised by legislation introduced this session concerning the use of traffic enforcement systems (photo monitoring devices) at intersections controlled by traffic control signals. Specifically, the study shall examine the constitutional concerns broached by the legislation (LB 1277), including Due Process, Equal Protection, and the Right to Privacy. Along with the constitutional inquiries, discussion shall include answering the question of how to implement the use of traffic enforcement systems without conflicting with the Nebraska Rules of the Road. Additionally, the study shall review how other states have implemented similar systems and how such systems have fared since their inception.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 428. Introduced by Brashear, 4.

PURPOSE: Nebraska has a number of statutes that punish offenders for theft, fraud, and destruction of property according to the dollar amount of loss suffered to the victim. This study should examine Nebraska's criminal statutes relating to theft, fraud, and destruction of property to ensure that consistency and fairness exist under the law and that the public's safety and security is maintained. Specifically, this study should evaluate the present applicability and definitions of Nebraska's theft, fraud, and destruction of property statutes and compare the pecuniary loss threshold of these statutes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 429. Introduced by Brashear, 4.

PURPOSE: A study to examine Nebraska's existing definition of the crime of burglary as codified in Neb. Rev. Stat. section 28-507. Nebraska presently defines the crime of burglary as the act of willfully, maliciously, and forcibly breaking and entering any real estate or any improvement erected thereon with the intent to commit any felony or with intent to steal property of any value. The purpose of this study is to evaluate this present definition and to specifically address the definition of the element of "breaking".

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 430. Introduced by Raikes, 25.

PURPOSE: Nebraska's public schools are one of the state's greatest resources. Nebraska students traditionally rank among the highest in the nation in achievement test scores. This tradition is attributable in large part to Nebraska's public school teachers. Yet national trends indicate that fewer and fewer people are choosing teaching as a profession. One reason for this may be that salaries are not commensurate with the professional training and requirements that teaching demands. All Nebraska school districts must be able to recruit and retain good teachers, particularly as the national teacher shortage makes itself known in Nebraska. This study will consider possible ways that the Tax Equity and Educational Opportunities Support Act can increase local districts' options for offering competitive salaries to teachers. In particular, the study will consider the impact of needs calculations, budget restrictions, and levy limitations on districts' ability to adjust spending to recruit and retain teachers. The opportunity of districts to address teacher salary issues through appeals to the Commission of Industrial Relations will also be considered.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 431. Introduced by Bohlke, 33.

PURPOSE: The purpose of this study resolution is to investigate and review matters and issues arising during the interim which are within the jurisdiction of the Education Committee of the Legislature.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE

NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:
1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 432. Introduced by Bohlke, 33.

PURPOSE: The purpose of this study resolution is to reexamine the role of the groups working with educational service units, consisting of representatives of two-thirds of the member school districts, representing a majority of the students in the member school districts, as described in sections 79-1241 and 79-1242.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:
1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 433. Introduced by Thompson, 14.

PURPOSE: The purpose of this study is to examine establishing a Nebraska voluntary sentencing guidelines commission. The commission, similar to those established in other states, would work toward the goals of reducing disparity in sentencing and managing correctional resources.

(2) Recognizing that the federal plan to put more police officers on the streets has resulted in a nationwide reduction of crime and studying the possibility of adding additional personnel to further reduce crime; and

(3) Examining programs such as Project Exile and other similar programs which give probation officers, court personnel, law enforcement personnel, and the community the ability to work together to prevent gun violence.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

LEGISLATIVE RESOLUTION 437. Introduced by Kiel, 9.

WHEREAS, Omaha Police Officer Jeffrey Holland was shot and critically wounded during a bank robbery attempt on March 1, 2000, Nebraska State Patrol trooper Jeff Crymble was shot and critically wounded, and Lincoln County Deputy Sheriff Stan McKnight was shot and wounded by a fugitive on February 12, 2000; and

WHEREAS, numerous Nebraska men, women, and children have been critically wounded and killed by unauthorized and negligent firearm use; and

WHEREAS, a rash of shootings across the nation with illegally or negligently obtained firearms has shocked the conscience of the nation; and

WHEREAS, the citizens of Nebraska want to provide the safest environment possible for their children, their family members, their friends, and the law enforcement officers who devote their lives to protecting them.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature extends its sympathy to all the individuals, their families, and their friends who have suffered due to gun violence in the State of Nebraska.
2. That the Legislature supports a safer working environment for our law enforcement officers by making it more difficult for children or nonauthorized users to illegally obtain and use firearms.

4. That the Legislature urges the development of products and technology to prevent firearms from being used by any person other than the owner or an authorized user and that such products and technology be available for use.

Laid over.

LEGISLATIVE RESOLUTION 438. Introduced by Kiel, 9.

LEGISLATIVE RESOLUTION 439. Introduced by Schimek, 27; Hilgert, 7.

PURPOSE: The Legislature shall conduct a study to review current, supplemental, and alternative funding sources provided to Department of Health and Human Services Regulation and Licensure licensed facilities that provide alternative care.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 440. Introduced by Wickersham, 49.

PURPOSE: The purpose of this study is to examine alternate ways of distributing state aid to municipalities, counties, and natural resources districts. Municipalities and counties receive state aid from a number of sources through different programs that are not integrated and coordinated with respect to each other. The state aid to natural resources districts program is not based on any examination of the needs of each natural resources district compared to its ability to meet those needs with a tax levy. The loss of revenue from the fertilizer fee has cast doubt on the capacity of natural resources districts to meet the needs of their residents using only property tax and the current state aid formula. This study is to examine alternatives to the current aid formulas in an effort to coordinate the distribution of state aid to municipalities and counties and develop a formula that will best suit the needs of natural resources districts.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to

conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 441. Introduced by Brashear, 4; Schmitt, 41; Robak, 22.

PURPOSE: To study the operating structure and legal authority of diversion programs for traffic offenses, including, but not limited to, a detailed examination of the statutes under which traffic diversion programs are established, the allocation of fees paid by diversion program participants in lieu of traffic fines, the feasibility of a statewide computerized registration system for diversion program participants, and assessment of the need for state oversight and development of a standardized curriculum, course length, and fee schedule for traffic diversion programs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 442. Introduced by Thompson, 14.

PURPOSE: The purpose of this study is to review the availability and quality of long-term care for Nebraskans with Alzheimer's disease.

Currently, 36,133 Nebraskans have Alzheimer's disease, a number that is expected to grow significantly in the next decade. Many are cared for in their homes, but many require out-of-home care in facilities. The study should examine the ability of the state's long-term care and assisted-living facilities to provide the specialized care required for these patients and patients with dementia, and examine the growing needs for the predicted growing numbers of such patients in the future.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 443. Introduced by Bohlke, 33.

PURPOSE: This study shall cover the following topics and make recommendations for legislation:

(1) Paying teachers for what they know and how they perform;

(4) The impact of benefits as a part of total compensation for teachers;

(5) Funding methods and sources for any increases in teacher compensation suggested by the task force;

(6) Whether there should be greater control of the educational process and facilities for the schools by the State of Nebraska if the state provides substantial additional funding for teachers' salaries; and

(7) Other topics as determined by the study committees.

The study committees shall hold at least one public hearing in each congressional district in Nebraska on the recommendations of the Teacher Salary Task Force before December 31, 2000.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That Education, Revenue, and Appropriations Committees of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

PURPOSE: The purpose of this resolution is to study the issues surrounding the management and personnel structure and manpower needs of the Department of Roads.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

LEGISLATIVE RESOLUTION 447. Introduced by Schrock, 38; Bromm, 23.

PURPOSE: The electric utility industry continues to undergo significant restructuring and deregulation. Nationally and regionally, public power entities and investor-owned power entities alike offer a wide range of products and services in addition to electricity. Investor-owned utilities operating in Nebraska, while not currently providing electric service, are offering other products and services in anticipation of a deregulated electric market. Accordingly, a study should be conducted of viability mechanisms for Nebraska's public power entities for the benefit of their customer-owners.

Study topics shall include, but are not limited to, the following areas:

(1) Regulatory, statutory, structural, and accounting issues which are relevant to public power districts, electric cooperatives, and municipalities in offering such expanded products and services;

(2) Issues surrounding the use of excess fiber optic cable capacity and

other telecommunications assets by public entities; and

(3) Any other topics deemed necessary to effectively carry out the purpose of this resolution.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation and Telecommunications Committee and the Natural Resources Committee of the Legislature shall be designated to conduct a joint interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of their study make a report of their findings, together with any recommendations, to the Legislative Council or Legislature.

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 449. Introduced by Bromm, 23.

PURPOSE: To study the public policy and practical implications of a Pay-for-Stay program in both county and state incarceration facilities. NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 450. Introduced by Bromm, 23.

PURPOSE: To study the public policy and practical implications of requiring zoning and land use planners to be subject to an independent assessment and affirmation of their knowledge and skills through certification, licensing, or registration systems.

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

RESOLUTIONS

LEGISLATIVE RESOLUTION 453. Introduced by Dierks, 40.

PURPOSE: Recent international diplomatic activity has been directed toward regulating and facilitating trade in commodities and foodstuffs containing genetically-modified organisms (GMO's). The Biosafety Protocol, adopted by more than 130 countries on January 29, 2000, in Montreal, Canada, consumer resistance among the governments and populations of America's trading partners, and decisions by certain U.S. food exporters to exclude GMO's from exported products may lead to greater demand for segregation of GMO and non-GMO crops and labeling of food items containing GMO's. Additionally, domestic processors and growers may desire to respond to potential consumer demand in this country for products which are marketed as GMO free. In 2000, at least seven states considered legislation regarding labeling of consumer products with respect to GMO status and it is possible that similar legislation may be introduced in Nebraska. The purpose of this study resolution is to examine issues, difficulties, and potential benefits related to GMO labeling at the state level.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 454. Introduced by Dierks, 40.

PURPOSE: As agriculture production is becoming increasingly integrated, more of the nation's crops and livestock are grown under production contract arrangements. Integration in swine production has been especially dramatic over the past decade. As recently as 1995, less than 35% of hogs were grown under contract. Today, nearly 75% of hogs are grown under a long-term procurement contract. The report of the Agriculture Structure Task Force (LB 730, 1999) recommended that the Legislature consider legislation, often described as a contractor bill of rights, to assure that contracts and other terms of trade have minimum fair standards, particularly where only one or two buyers are active in a given region. LB 1071, Ninety-sixth Legislature, Second Session, 2000, introduced the concept of a contract/producer protection act. The purpose of this study is to examine issues associated with contract production and to determine appropriate actions to safeguard the economic and legal interests of producers under contractual arrangements. Among other things, the study shall specifically examine the ability of producers to form certified marketing associations to collectively bargain on behalf of producers, the vulnerability of producers when performance under the contract terms requires significant investments in facilities, and specific contract issues.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 455. Introduced by Dierks, 40.

PURPOSE: The use of a "ledger" contract and its variations in long-term hog procurement contracts has been increasingly criticized. Under this type of contract, producers incur a deficit on their accounts when prices fall below a certain price and receive a credit when prices rise above that price. The intent is to provide a stable price mechanism with the anticipation that the "ledger" account will, due to price fluctuations, more or less balance over a period of time. However, persistent low prices for swine have placed many producers in an impossibly negative position, potentially creating both financial and legal hardships for producers. The purpose of this study is to examine the prevalence of "ledger" contracts in livestock procurement and to examine the economic, legal, and social issues associated with the "ledger" contract.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 456. Introduced by Dierks, 40.

PURPOSE: The purpose of this study is to examine the potential of the Internet to enhance producers' ability to access markets, to form alliances and cooperatives, and to access information dedicated to helping farmers make intelligent decisions about their future. The study shall seek to identify new areas in which the University of Nebraska Institute of Agriculture and Natural Resources, the Rural Development Commission, and the Department of Agriculture may provide services, courses, or information online to create new value-added, marketing, and career and employment opportunities for Nebraska farm families.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 457. Introduced by Dierks, 40.

PURPOSE: The ability of concerted action by various states to influence federal policy has been demonstrated with the enactment of the federal Mandatory Livestock Price Reporting Act of 1999. While enactment of this law at the federal level had been advocated for many years by various segments of the livestock industry, this critical market reform was accomplished when Congress responded to several states enacting livestock reporting at the state level. The purpose of this resolution is to examine creating a compact or agreement among agricultural states to fund a state agricultural legislative clearinghouse among member states to create a library of common or innovative state laws and legislative objectives with respect to agriculture in order to better coordinate state efforts to influence federal policy and to coordinate state policies. The goal of the compact would be to compile and categorize state laws on various agriculturally-related subjects, to analyze trends in agriculture, and to recommend collective actions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 458. Introduced by Dierks, 40.

PURPOSE: Mergers, alliances, and various other arrangements are reducing the number of players in agricultural input supply, particularly in seeds, and increasing the level of concentration. But increasing levels of concentration among firms which had formerly been competitors does not tell the entire story. The revolution in ownership of germ plasm, the feature of cells that determines the characteristics of offspring, also is moving rapidly toward concentration in a few, economically powerful players. For decades, land grant universities developed the basic genetic lines and made those lines available to the seed industry. Because of limitations on university funding and the near-revolution in genetic engineering, the private sector has emerged as a dominate figure in developing basic research. A landmark U.S. Supreme Court decision in 1980 allowing life forms to be patented and the Bayh-Dole Act of 1980 which dramatically changed the rules for patenting and licensure of discoveries arising from federally-funded research have created incentives to privatize the benefits of genetic research and genetic engineering.

The purpose of this resolution is to carry forth a recommendation of the Agricultural Structure Task Force to study the implications of recent trends, and the adequacy of Nebraska law for retaining some life forms, including germ plasm, in the public domain. The study shall specifically examine the forms of and prevalence of genetic and biotechnology research collaboration with the private sector at the University of Nebraska, policies and procedures followed by the university for the patenting and licensure of important research discoveries, the adequacy of public funding for basic genetic and biotechnology research, and whether recent developments in agricultural research are consistent with the university's land grant mission.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 459. Introduced by Dierks, 40.

PURPOSE: LB 835, enacted in 1999, created the Competitive Livestock Markets Act. One of the elements of the act was a provision to protect swine producers from price discrimination by prohibiting packers from paying different prices to sellers of swine not based on differences in carcass merit or acquisition and transportation costs. Operability of this portion of the Competitive Livestock Markets Act has been indirectly preempted by federal price reporting legislation. Similar provisions in the states of South Dakota and Missouri have been struck down in federal district court decisions as an unreasonable burden on interstate commerce. The purpose of this study is to examine the desirability of retaining some manner of price discrimination protection for Nebraska producers and the form such protection should take to avoid Commerce Clause or other constitutional shortcomings. The study may include examination of enactment of a version of the Packers and Stockyards Act prohibition against any undue or unreasonable preference or advantage to any particular person or locality or any undue or unreasonable prejudice or disadvantage.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 460. Introduced by Dierks, 40.

PURPOSE: To examine opportunities for producers and processors to collaborate in bringing greater value to agricultural production and enhancing farm income. The study shall examine formation of producer cooperatives, potential for greater levels of producer ownership in processing segments of the food chain, and other arrangements which the state may potentially encourage and develop to realize innovative marketing strategies enabling producers to share a greater portion of the consumer food dollar.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 461. Introduced by Bromm, 23.

PURPOSE: The purpose of this resolution is to study the issues surrounding the recodification of the statutes relating to the Public Service Commission.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

PURPOSE: The purpose of this resolution is to study the issues surrounding the frequency of reissuance of license plates in Nebraska, the use of one license plate on Nebraska vehicles, and the use of specialty and personalized license plates in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 486. Introduced by Schimek, 27.

PURPOSE: Volunteer emergency medical response personnel and volunteer firefighters provide a valuable service to our state. Their dedication and sacrifice provide life-saving assistance to many communities and individuals. The people who volunteer their time are finding it more difficult to provide these services due to costs of education and time away from the workplace. Employers also shoulder a cost when the employees are absent from the workplace.

Smaller communities across Nebraska are having a hard time providing the services staffed by these volunteers. Communities are facing the tough decisions to reduce services due to lack of qualified personnel to fill these positions.

The state must try to ensure that emergency medical technicians and volunteer firefighters are given the support they need in order to continue. The safety and well-being of the citizens of this state, the plight of communities facing the loss or reduction of these services, and the employer of the volunteers shall be taken into consideration.

An interim study shall be conducted and shall include, but not be limited to:

(1) An inquiry into the amount of personal monetary contributions that are made by volunteer emergency medical response personnel and volunteer firefighters to our communities;

(2) An inquiry into the cost to employers when employees receive time off to attend emergency medical response and firefighting training sessions and when on emergency calls;

(3) A review of the number of emergency medical and fire calls received and responded to by volunteer emergency medical response personnel and volunteer firefighters; and

(4) An inquiry into the difficulty in finding personnel to volunteer their time as volunteer emergency medical response personnel and volunteer firefighters.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature by December 1, 2000.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 487. Introduced by Smith, 48; Connealy, 16; Stuhr, 24; Kremer, 34; Baker, 44; Wickersham, 49; Matzke, 47; Price, 26.

PURPOSE: The University of Nebraska Institute of Agriculture and Natural Resources (IANR) was established by the Legislature in 1973. The institute provides education, research, and service programs relating to food, agriculture, agribusiness, natural resources, and human resources. Among the specialized centers and units under the auspices of the institute are the Agriculture Research and Development Center in Mead, the Biological Chemistry Center, the Biotechnology Center, the Center for Grassland studies, the Communications and Information Technology Unit, the Food Processing Center, the 4-H Development Unit, the Great Plains Regional Center for Global Environmental Change, the Industrial Agricultural Products Center, the Leadership Development Center, the Nebraska Forest Services, the Nebraska Industrial Competitive Server, the Nebraska Statewide Arboretum, the Rural Community Revitalization and Development Center, the Sustainable Agricultural Systems Center, and the Water Center and Environmental Programs. While the administrative headquarters are located at the University of Nebraska-Lincoln (UNL), faculty of the institute are not only located on the UNL campus but also at Research and Extension Centers in Clay Center, Concord, Lincoln, North Platte, and Scottsbluff, at the Nebraska College of Technical Agriculture in Curtis, at university-affiliated sites in Grand Island, Norfolk, and Omaha, and in most of Nebraska's ninety-three counties. The purpose of this interim study is to examine:

(1) The priorities of the University of Nebraska for the IANR relating to the university's commitment to, and current and future funding for, the IANR; and

(2) The commitment of the University of Nebraska-Lincoln campus to enhancing the IANR's purpose of maintaining the mission of a land grant university and meeting the needs of Nebraska's agricultural and natural resources across the state through extension services, research, and education.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee and Agriculture Committee of the Legislature shall be designated to conduct a joint interim study to carry out the purposes of this resolution.
2. That the committees shall upon the conclusion of their study make a report of their findings, together with any recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 488. Introduced by Schimek, 27.

PURPOSE: Currently, when some special-needs foster children are adopted, such children may need residential treatment care. Medicaid will cover the costs of hospitalization or residential treatment facilities. The problem arises when the child no longer needs as restrictive an environment as provided by a hospital or the residential treatment facility but the child is still not ready to return home. Group homes offer a less restrictive environment but are not covered by Medicaid. The cost of group homes fall to the adoptive parents.

If the child were still a state ward, the state would have the financial obligation to care for such child.

The Legislature shall conduct a costs-benefits analysis of extending subsidized adoption coverage to include less restrictive levels of care. The study shall include the possibility of establishing a pilot project and the associated costs for care for such children in less restrictive settings.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature by December 1, 2000.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 489. Introduced by Kristensen, 37.

PURPOSE: The purpose of this interim study is to comply with legislative intent contained in Legislative Bill 1217, Ninety-sixth Legislature, Second Session, 2000, section 102, which requires a study of the recruitment, development, and retention of minority and women faculty members at the University of Nebraska. This study relates to provisions contained in Laws 1997, LB 389, section 156, requiring the University of Nebraska to be among the top fifty percent among the Board of Regents' peer institutions in the employment of women and minority faculty members by August 1, 2002.

Since passage of Laws 1997, LB 389, the University of Nebraska has issued three interim reports to the Legislature and the Director of Administrative Services reporting on its progress toward reaching this requirement. There are two more academic years prior to the target deadline of August 1, 2002. The interim study shall focus on the following:

(1) Progress made by the University in reaching the requirements contained in Laws 1997, LB 389, section 156;

(2) The feasibility of the University reaching the requirements within the currently prescribed timeframe;

(3) Issues that have an impact on the University's ability to reach the requirements; and

(4) What changes, if any, should be made to the requirements regarding the recruitment, development, and retention of minority and women faculty at the University of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

The proof of such publication shall be made by the affidavit of the publisher or principal clerk of such newspaper or by some other person knowing about the same and shall be filed in the office of the board. When the land consists of an undivided interest in realty, an action to partition may be maintained in the same manner as provided by law for the partition of real property among several joint owners. All notices of sale shall be posted in the office of the board. The board may arrange for such commercial advertising of land sales as it deems in the best interest of the state.

Any person or entity requesting that a tract of land be sold at public auction shall file an agreement with the board to pay the appraised value or a higher value as a minimum opening bid for the land. Within sixty days after receipt by the board of the request, the board shall determine whether or not to offer the tract of land for sale at public auction with a minimum opening bid equal to that amount stated in the accepted agreement for the minimum opening bid and shall notify the person or entity requesting the auction of the board's determination prior to advertising the tract of land for sale. If the person submitting the high bid for the land fails to pay the balance of the purchase price and complete the sale within ninety days, his or her rights under the sale, including the twenty percent downpayment, shall be forfeited by the board and a new sale shall be authorized.

Sec. 5. Section 72-258.02, Reissue Revised Statutes of Nebraska, is amended to read:

Room 2018

Dear Mr. O'Donnell:

Pursuant to the Provisions of Section 85-404, R.R.S. of Nebraska, 1943 Legislative approval is requested for the following three University of Nebraska projects:

City Campus Parking Structure (17th & R Streets). The University of Nebraska-Lincoln proposes to construct a multi-level parking structure with a minimum of 1,200 parking spaces on the block bounded by 17th Street, R Street, 18th Street and Q Street. The structure will also contain a waiting area for transit riders and street level (approximately 17,000 gross square feet) shell space for university functions. The project is estimated to cost $17,737,000.

Request. The University requests approval for this Parking Structure project totaling $17,737,000 to be financed through the issuance of Parking Revenue Bonds.

Nebraska Union Addition/Renovation. The University of Nebraska at Kearney proposes to expand and renovate the existing Nebraskan Student Union. The project will include: 1) addition of meeting/work space for student government and organizations; 2) addition of 24 hour computer laboratory; 3) renovation of space for banquet facilities; 4) addition of smaller flexible multipurpose meeting/conference space; 5) expansion of food court; 6) renovation and addition of student amenities such as lounges, copy center and post office; and 7) renovation of existing heating, ventilating and air conditioning systems. The project is estimated to cost $6,300,000.

Pursuant to the Provisions of Section 85-408, R.R.S. of Nebraska, 1943 Legislative approval is requested for the following:

Utility Improvements. The University of Nebraska at Kearney proposes utility improvements which involve the installation of steam and chilled water lines for use by revenue bond facilities. With the installation of utilities to the new College of Education, it is advantageous to increase line capacities to serve the entire east campus. The cost to the revenue bond program is prorated to the square feet that revenue bond facilities are to the total campus and is estimated at $732,600.

Request. The University of Nebraska requests approval for these Utility Improvements at the University of Nebraska at Kearney totaling $732,600. The improvements will be financed through the Surplus Fund of the University of Nebraska at Kearney Student Fees and Facilities Revenue Bonds.

The Board of Regents authorized these expenditures at its January 15, 2000, meeting. On March 29, 2000, the Nebraska Coordinating Commission for Postsecondary Education approved the expenditures.

Thank you for your consideration of these projects.

Respectfully submitted,

March 30, 2000

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. President and Senators:

With this letter, I am returning LB 1217 with line-item reductions. The General Fund amounts vetoed in LB 1217 total 8.8 million dollars for the current 1999-2001 biennium and represent a reduction of an additional 9.9 million dollars of continuing obligations for the 2001-2003 biennium. In addition, I have adjusted LB 1217 with a reduction of 1.43 million General Fund dollars in recognition of LB 812 and LB 812A, which are waiting Select File consideration.

Passage of a number of pending legislative bills with fiscal impact could place the State in a serious situation. While the spending picture for the current biennium may appear to be within limits, the on-going impact of our decisions, unless carefully contained, would most certainly place the State in a serious deficit status as we prepare our next biennial budget. I firmly believe that we should follow a responsible course which not only complies with the statutory minimum General Fund reserve for the 1999-2001 biennium, but also plans for at least the same financial position in the following 2001-2003 biennium. The adjustments to LB 1217, therefore, contain the following reductions.

The additional General Funds for mental health provider rate increases have been reduced by 2 million dollars. One million new dollars remain in the budget for this purpose. Of the 1.5 million dollars added for Region VI hospital reimbursements, 750,000 dollars have been left in place for FY1999-00 to provide one-time relief. The funds appropriated for the additional sex-offender beds at the Lincoln Regional Center remain in the budget. Completion of this new capacity for specialized treatment will relieve overcrowding at the Norfolk Regional Center and free beds for Region VI placements on a more timely basis.

I have also vetoed the additional 150,000 dollars appropriated by the Legislature for FY2000-01 to the Nebraska Library Commission for state assistance for public library service. This veto will maintain the amount of state funding for the Libraries for the 21st Century campaign at 550,000 dollars each year, the amount approved last year for the current biennium.

The 3 million dollar per year deficit appropriation for the University of Nebraska Health Insurance Trust Fund has been reduced by 1.25 million dollars in each year of the biennium. The Board of Regents has contracted for an analysis of the University Health Insurance Program and Trust Fund. As the situation exists, there is no current deficit in the University's Health Insurance Trust Fund. Current projections indicate that the University will first begin to utilize Trust Fund reserves late in FY2000-01. This matter can be further reviewed by the Board of Regents and reconsidered during the next legislative session.

The 500,000 dollars added to replace Natural Resources Enhancement Fund revenue lost due to the expiration of the commercial fertilizer fee have been vetoed. An estimated 2 million dollars will remain available to the natural resource districts from the fertilizer fee in FY2000-01.

Other appropriations were reduced as follows: 900,000 dollars in FY1999-00 and 987,000 dollars in FY2000-01 for Sheldon Memorial Art Gallery renovations; 400,000 dollars for Mass Transit Aid in FY2000-01; 100,000 dollars in FY2000-01 for the Nebraska Transit and Rail Advisory Council study; and the 500,000 dollars for Centennial Mall improvements for FY2000-01.

The issue of a state plan for assessment and reporting of public school performance in Nebraska is currently awaiting Select File consideration by the Legislature in LB 812 and LB 812A. LB 812A in its current form includes 1.43 million dollars to fund the provisions of LB 812. In light of the funding provided in LB 812A, I have reduced 1.43 million General Fund dollars earmarked in LB 1217 for an assessment and reporting system. I anticipate that LB 812A will continue to follow LB 812 and that it will remain as a vehicle for the necessary appropriations to implement a statewide assessment and report system.

I appreciate the hard work the members of the Appropriations Committee and the Legislature have invested in the budget thus far. Your restraint is needed as we work together to fashion a final budget which meets the needs of Nebraskans through fiscal year 2001 but does not leave us in a tenuous position as we look to the new 2001-2003 biennium. I urge you to sustain these reductions to LB 1217.

Sincerely,
(Signed) Mike Johanns
Governor

AMENDMENTS - Print in Journal

Senator Bromm filed the following amendment to LB 951:
AM3048

1. Insert the following new sections:

"Section 1. Section 39-1345.01, Reissue Revised Statutes of Nebraska, is amended to read:

39-1345.01. Whenever the Department of Roads, under the authority of section 39-1345, permits the public use of a highway undergoing construction, repair, or maintenance in lieu of a detour route, the contractor shall not be held responsible for damages to those portions of the project upon which the department has permitted public use, when such damages are the result of no proximate act or failure to act on the part of the contractor.~~,~~ ~~except in those instances where traffic upon the portion being constructed was contemplated in the specifications.~~

Sec. 4. Section 60-6,298, Reissue Revised Statutes of Nebraska, is amended to read:

60-6,298. (1)(a) The Department of Roads or the Nebraska State Patrol, with respect to highways under its jurisdiction including the National System of Interstate and Defense Highways, and local authorities, with respect to highways under their jurisdiction, may in their discretion upon application and good cause being shown therefor issue a special, continuing, or ~~permit~~ ~~or a~~ continuous permit in writing authorizing the applicant or his or her designee:

(i) To operate or move a vehicle, a combination of vehicles, or objects of a size or weight of vehicle or load exceeding the maximum specified by law when such permit is necessary:

(A) To further the national defense or the general welfare;

(B) To permit movement of cost-saving equipment to be used in highway or other public construction or in agricultural land treatment; or

(C) Because of an emergency, an unusual circumstance, or a very special situation;

(ii) To operate vehicles, for a distance up to one hundred twenty miles, loaded up to fifteen percent greater than the maximum weight specified by law, up to ten percent greater than the maximum length specified by law, except that for a truck-tractor semitrailer trailer combination utilized to transport sugar beets which may be up to twenty-five percent greater than the maximum length specified by law, or both, when carrying grain or other seasonally harvested products from the field where such grain or products are harvested to storage, market, or stockpile in the field or from stockpile to market or factory when failure to move such grain or products in abundant quantities would cause an economic loss to the person or persons whose grain or products are being transported or when failure to move such grain or products in as large quantities as possible would not be in the best interests of the national defense or general welfare. The distance limitation may be waived for vehicles when carrying dry beans from the field where harvested to storage or market when dry beans are not normally stored, purchased, or used within the permittee's local area and must be transported more than one hundred twenty miles to an available marketing or storage destination. Except for farm trucks as provided in subdivision (b) of this subsection, no permit shall authorize a weight greater than twenty thousand pounds on any single axle; or

(iii) To transport an implement of husbandry which does not exceed twelve and one-half feet in width during daylight hours, except that the permit shall not allow transport on holidays.

(b) Any farm truck as defined in section 60-301 with not more than two axles may operate with a special permit for a distance of up to forty miles with an excess axle load of not more than five percent in excess of the maximum load permitted for a single axle by section 60-6,294 when such truck is being used for carrying grain or other seasonally harvested products from the field where such grain or products are harvested to storage, market, or stockpile in the field, except that such truck shall not operate on the National System of Interstate and Defense Highways.

(c) No permit shall be issued under subdivision (a)(i) of this subsection for a vehicle carrying a load unless such vehicle is loaded with an object which exceeds the size or weight limitations, which cannot be dismantled or reduced in size or weight without great difficulty, and which of necessity must be moved over the highways to reach its intended destination. No permit shall be required for the temporary movement on highways other than dustless-surfaced state highways and for necessary access to points on such highways during daylight hours of cost-saving equipment to be used in highway or other public construction or in agricultural land treatment when such temporary movement is necessary and for a reasonable distance.

(2) The application for any such permit shall specifically describe the vehicle, the load to be operated or moved, whenever possible the particular highways for which permit to operate is requested, and whether such permit is requested for a single trip or for continuous or continuing operation.

(3) The department or local authority is authorized to issue or withhold such permit at its discretion or, if such permit is issued, to limit the number of days during which the permit is valid, to limit the number of trips, to establish seasonal or other time limitations within which the vehicles described may be operated on the highways indicated, or to issue a continuous or continuing permit for use on all highways, including the National System of Interstate and Defense Highways. The permits are subject to reasonable conditions as to periodic renewal of such permit and as to operation or movement of such vehicles. The department or local authority may otherwise limit or prescribe conditions of operation of such vehicle or vehicles, when necessary to assure against undue damage to the road foundations, surfaces, or structures or undue danger to the public safety. The department or local authority may require such undertaking or other security as may be deemed necessary to compensate for any injury to any roadway or road structure.

(4) Every such permit shall be carried in the vehicle to which it refers and shall be open to inspection by any peace officer, carrier enforcement officer, or authorized agent of any authority granting such permit. Each such permit shall state the maximum weight permissible on a single axle or combination of axles and the total gross weight allowed. No person shall violate any of the terms or conditions of such special permit. In case of any violation, the permit shall be deemed automatically revoked and the penalty of the original limitations shall be applied unless:

(a) The violation consists solely of exceeding the size or weight specified by the permit, in which case only the penalty of the original size or weight limitation exceeded shall be applied; or

(b) The total gross load is within the maximum authorized by the permit, no axle is more than ten percent in excess of the maximum load for such axle or group of axles authorized by the permit, and such load can be shifted to meet the weight limitations of wheel and axle loads authorized by such permit. Such shift may be made without penalty if it is made at the state or commercial scale designated in the permit. The vehicle may travel from its point of origin to such designated scale without penalty, and a scale ticket from such scale, showing the vehicle to be properly loaded and within the gross and axle weights authorized by the permit, shall be reasonable evidence of compliance with the terms of the permit.

(5) The department or local authority issuing a permit as provided in this section may adopt and promulgate rules and

regulations with respect to the issuance of permits provided for in this section.

(6) The department shall make available applications for permits authorized pursuant to subdivisions (1)(a)(ii), (1)(a)(iii), and (1)(b) of this section in the office of each county treasurer. The department may make available applications for all other permits authorized by this section to the office of the county treasurer and may make available applications for all permits authorized by this section to any other location chosen by the department.

(7) The department or local authority issuing a permit may require a permit fee of not to exceed ~~ten~~ twenty-five dollars, except that:

(b) The fee for permits issued pursuant to subdivisions (1)(a)(ii) and (1)(b) of this section shall be twenty-five dollars for a thirty-day permit and fifty dollars for a sixty-day permit. Permits issued pursuant to such subdivisions shall be valid for thirty days or sixty days and shall be renewable for a total number of days not to exceed one hundred and twenty days per year.

A vehicle or combination of vehicles for which an application for a permit is requested pursuant to this section shall be registered under section 60-305.09 or 60-331 for the maximum gross vehicle weight that is permitted pursuant to section 60-6,294 before a permit shall be issued except as provided in subdivision (1)(b) of this section.".

1. That the Legislature adopts the Nebraska Redistricting Resolution to establish the process that is intended to be followed in the redistricting process.

(3) Nothing in the Nebraska Redistricting Resolution shall be construed to preclude a member of the Legislature from introducing a bill or an amendment pertaining to the redistricting process.

Sec. 5. (1) The director shall only provide such information regarding the plans as may be required by guidelines adopted by the task force to persons outside (a) his or her office and (b) the office of the Revisor of Statutes.

(c) The population of congressional districts and other districts shall not vary from the relevant ideal district populations except as allowed by subdivisions (d) and (e) of this subsection.

(d) No congressional district shall have a population which causes a plan to have a relative deviation in excess of plus or minus one-half percent, based on the ideal district population.

(e) No other district shall have a population which causes a plan to have a relative deviation in excess of the guidelines established by the task force.

(2) County lines shall be followed whenever practicable for boundaries of congressional districts and other districts. To the greatest extent possible, consistent with subsection (1) of this section, the boundaries shall coincide with the boundaries of cities and villages of the state.

If a county, city, or village must be divided, the division shall be made along clearly recognizable boundaries, using visible, recognizable physical features which meet the requirements of the United States Bureau of the Census.

(5) No congressional district or other district shall be drawn for the purpose of favoring a political party, an incumbent legislator or member of Congress, or any other person or group or which results in the unlawful dilution of the voting strength of a language or racial minority group.

Senator Schrock filed the following amendment to LB 1234:
AM3271

(Amendments to E & R amendments, AM7251)

1. Insert the following new sections:

"Sec. 6. Section 46-656.25, Reissue Revised Statutes of Nebraska, is amended to read:

46-656.25. (1) A district in which a management area has been designated shall by order adopt one or more of the following controls for the management area:

(a) It may determine the permissible total withdrawal of ground water for each day, month, or year and allocate such withdrawal among the ground water users;

(b) It may adopt a system of rotation for use of ground water;

(c) It may adopt well-spacing requirements more restrictive than those found in sections 46-609 and 46-651;

(d) It may require the installation of devices for measuring ground water withdrawals from water wells;

(e) It may adopt a system which requires reduction of irrigated acres pursuant to subsection (2) of section 46-656.26;

(f) It may limit or prevent the expansion of irrigated acres;

(g) It may require the use of best management practices;

(h) ~~(g)~~ It may require the analysis of water or deep soils for fertilizer and chemical content;

(i) ~~(h)~~ It may provide educational requirements, including mandatory educational requirements, designed to protect water quality or to stabilize or reduce the incidence of ground water depletion, conflicts between ground water users and surface water appropriators, disputes over interstate compacts or decrees, or difficulties fulfilling the provisions of other formal state contracts or agreements;

(j) ~~(i)~~ It may require water quality monitoring and reporting of results to the district for all water wells within all or part of the management area; ~~and~~

(k) It may close all or a portion of the management area to the issuance of additional permits or may condition the issuance of additional permits on compliance with other rules and regulations adopted and promulgated by the district to achieve the purpose or purposes for which the management area was designated. This subdivision may be implemented whenever the district determines the impact on surface water supplies or the depletion or contamination of the ground water supply in the management area or any portion of the management area cannot be protected through implementation of reasonable controls specified in subdivisions (1)(a) through (1)(j) of this section; and

(l) ~~(j)~~ It may adopt and promulgate such other reasonable rules and regulations as are necessary to carry out the purpose for which a management area was designated.

(2) In adopting, amending, or repealing any control authorized by subsection (1) of this section or sections 46-656.26 and 46-656.27, the district's considerations shall include, but not be limited to, whether it reasonably appears that such action will mitigate or eliminate the condition which led to designation of the management area or will improve the administration of the area.

(3) Upon request by the district, the Director of Water Resources shall review and comment on the adoption, amendment, or repeal of any authorized control in a management area. The director may hold a public hearing to consider testimony regarding

the control prior to commenting on the adoption, amendment, or repeal of the control. The director shall consult with the district and fix a time, place, and date for such hearing. In reviewing and commenting on an authorized control in a management area, the director's considerations shall include, but not be limited to, those enumerated in subsection (2) of this section.

(4) If because of varying ground water uses, varying surface water uses, different irrigation distribution systems, or varying climatic, hydrologic, geologic, or soil conditions existing within a management area the uniform application throughout such area of one or more controls would fail to carry out the intent of the Nebraska Ground Water Management and Protection Act in a reasonably effective and equitable manner, the controls adopted by the district pursuant to this section may contain different provisions for different categories of ground water use or portions of the management area which differ from each other because of varying climatic, hydrologic, geologic, or soil conditions. Any differences in such provisions shall recognize and be directed toward such varying ground water uses or varying conditions. Except as otherwise provided in this section, the provisions of all controls for different categories of ground water use shall be uniform for all portions of the area which have substantially similar climatic, hydrologic, geologic, and soil conditions.

(5) The district may establish different water allocations for different irrigation distribution systems, on the condition that such different water allocations shall be authorized for no more than five years from the time such allocations are adopted.

(6)(a) The district may establish different provisions for different hydrologic relationships between ground water and surface water.

(b) For management areas a purpose of which is the integrated management of hydrologically connected ground water and surface water, the district may establish different provisions for water wells constructed before the designation of a management area for integrated management of hydrologically connected ground water and surface water and for water wells constructed on or after the designation date or any other later date or dates established by the district.

(c) The district shall make a replacement water well as defined in section 46-602, or as further defined in district rules and regulations, subject to the same provisions as the water well it replaces.

(7) ~~If the district determines, following a public hearing conducted pursuant to section 46-656.19, that the impact on surface water supplies or the depletion or contamination of the ground water supply in the management area or any portion of the management area is so excessive that the public interest cannot be protected solely through implementation of reasonable controls~~

~~adopted pursuant to subsection (1) of this section, it may close all or a portion of the management area to the issuance of any additional permits for a period of not more than five calendar years. The area may be further closed thereafter by a similar procedure for additional time periods of the same length. Any such area may be reopened at any time the district determines that conditions warrant new permits at which time the district shall consider all previously submitted applications for permits in the order in which they were received.~~

~~(8)~~ Whenever a management area designated under section 46-656.39 or 46-656.52 encompasses portions of two or more districts, the responsibilities and authorities delegated in this section and sections 46-656.26 and 46-656.27 shall be exercised jointly and uniformly by agreement of the respective boards of all districts so affected. Whenever management areas designated by two or more districts adjoin each other, the districts are encouraged to exercise the responsibilities and authorities jointly and uniformly by agreement of the respective boards.

(8) ~~(9)~~ For the purpose of determining whether conflicts exist between ground water users and surface water appropriators, surface water appropriators under the Nebraska Ground Water Management and Protection Act does not include holders of instream flow appropriations under sections 46-2,107 to 46-2,119.

Sec. 7. Section 46-656.26, Reissue Revised Statutes of Nebraska, is amended to read:

46-656.26. (1) If allocation is adopted for use of ground water for irrigation purposes in a management area, the permissible withdrawal of ground water shall be allocated equally per irrigated acre except as permitted by subsections (4) through (6) of section 46-656.25. Such allocation shall specify the total number of acre-inches that are allocated per irrigated acre per year, except that the district may allow a ground water user to average his or her allocation over any reasonable period of time. ~~not to exceed five years.~~ A ground water user may use his or her allocation on all or any part of the irrigated acres to which the allocation applies or in any other manner approved by the district.

(2) If annual rotation or reduction of irrigated acres is adopted for use of ground water for irrigation purposes in a management area, the nonuse of irrigated acres shall be a uniform percentage reduction of each landowner's irrigated acres within the management area or a subarea of the management area. Such uniform reduction may be adjusted for each landowner based upon crops grown on his or her land to reflect the varying consumptive requirements between crops.

Sec. 8. Section 46-656.27, Reissue Revised Statutes of Nebraska, is amended to read:

46-656.27. A district may ~~annually and shall at least once every three years~~ review any allocation, rotation, or reduction control imposed in a management area and shall adjust allocations, rotations, or reductions to accommodate new or additional uses or otherwise reflect findings of such review, consistent with the ground water management objectives. Such review shall consider new development or additional ground water uses within the area, more accurate data or information that was not available at the time of the allocation, rotation, or reduction order, the availability of supplemental water supplies, any changes in ground water recharge, and such other factors as the district deems appropriate.

Sec. 9. Original sections 46-656.25, 46-656.26, and 46-656.27, Reissue Revised Statutes of Nebraska, are repealed.".

2. Insert underscoring in sections 1 to 5.

AMENDMENT - Print in Journal

Senator Wickersham filed the following amendment to LB 1107A:
AM3286

(Amendments to Final Reading copy)

1. Strike the original section and insert the following new sections:

"Section 1. Section 71-1590, Revised Statutes Supplement, 1999, is amended to read:

71-1590. (1) The real and personal property of a local housing agency and any wholly owned controlled affiliate thereof used solely (a) for the administrative offices of the housing agency or wholly owned controlled affiliate thereof, (b) to provide housing for persons of eligible income and qualifying tenants, and (c) for appurtenances related to such housing shall be exempt from all taxes and special assessments of any city, any county, the state, or any public agency thereof, including without limitation any special taxing district or similar political subdivision. All other real and personal property of the housing agency or wholly owned controlled affiliate thereof shall be deemed to not be used for a public purpose for purposes of section 77-202 and shall be taxable as provided in sections 77-201 and 77-202.11. Property owned jointly by a housing agency or its wholly owned controlled affiliates with other nongovernmental persons or entities shall be exempt from such taxes and assessments to the extent of the ownership interest which the housing agency and its wholly owned controlled affiliates hold in the property and to the extent the property is used solely to provide housing for persons of eligible income and qualifying tenants. Nothing in this section shall be deemed to preclude a housing agency and its wholly owned controlled affiliates from entering into an agreement for the payment of all or any portion of any special assessments which might otherwise be assessed except for the exemption created by this section.

(2) A housing agency may agree to make payments in lieu of all taxes or special assessments to the county within whose territorial jurisdiction any development of such housing agency or its controlled affiliates is located, for improvements, services, and facilities furnished by the city, county, or other public agencies, for the benefit of such development. Nothing contained in this section shall be deemed to require such an agreement by a local housing agency, and in no event shall the amounts payable by the housing agency exceed the amounts which, except for the exemption provided in this section, would otherwise be payable under regular taxes and special assessments for similar properties referred to in subsection (1) of this section. All payments in lieu of taxes made by any such housing agency shall be distributed by the county to all public agencies in such proportion that each public agency shall receive from the total payment the same proportion as its property tax rate bears to the total property tax which would be levied by each public agency against property of the housing agency if the same were not exempt from taxation.

(3) The property of Indian housing authorities created under Indian law shall be exempt from all taxes and special assessments of the state or any city, village, or public agency thereof. In lieu of such taxes or special assessments, an Indian housing authority may agree to make payments to any city, village, or public agency for improvements, services, or facilities furnished by such city, village, or public agency for the benefit of a housing project owned by the housing authority, but in no event shall such payments exceed the estimated cost to such city, village, or public agency of the improvements, services, or facilities to be so furnished. All payments made by any such housing authority in lieu of taxes, whether such payments are contractually stipulated or gratuitous voluntary payments, shall be distributed among the cities, villages, or public agencies within which the housing project is located, in such proportion that each city, village, or public agency shall receive from the total

payment the same proportion as its ad valorem tax rate bears to the total ad valorem tax rate which would be levied by each city, village, or public agency against the properties of the Indian housing authority if the same were not exempt from taxation. For purposes of this section, (a) Indian housing authority has the same meaning as in 24 C.F.R. 955.103, and (b) Indian law means the code of an Indian tribe recognized as eligible for services provided to Indians by the United States Secretary of the Interior.

Sec. 2. Original section 71-1590, Revised Statutes Supplement, 1999, is repealed.".

MESSAGES FROM THE GOVERNOR

Patrick J. O'Donnell
Clerk of the Legislature
State Capitol, Room 2018
Lincoln, NE 68509

Dear Mr. O'Donnell:

Engrossed Legislative Bills 153e, 153Ae, 482, 482A, 557, 950e, 950Ae, 957e, 1243, 1243A, 1363, 1399e, 1124e, 1124Ae, 1348, 1348A, 352e, and 352Ae were received in my office on April 4, 2000; and Engrossed Legislative Bills 973, 973A, 1119, 812, 812A, 936, and 936A were received on April 6, 2000.

These bills were signed by me on April 10, 2000, and delivered to the Secretary of State.

Sincerely,

Dear Mr. President and Members of the Legislature:

I am returning LB 289e and LB 289Ae without my signature and with my objections.

The requirement under LB 289e that county boards file county zoning regulations and any amendments with the Secretary of State is an unnecessary new state mandate upon counties that results in a duplication of government services.

I urge you to sustain my veto of LB 289e and LB 289Ae.

Sincerely,
(Signed) Mike Johanns

Dear Mr. President and Members of the Legislature:

I am returning LB 414 and LB 414A without my signature and with my objections.

While LB 414 will have a General Fund impact of only $147,134 in FY 2000-01, the cost increases to $3,737,539 in FY 2001-02. In FY 2002-03, the General Fund impact is projected to be $5,977,225. The fiscal impact of LB 414 is simply too burdensome given the status of our current State's budget.

I urge you to sustain my veto of LB 414 and LB 414A.

Sincerely,
(Signed) Mike Johanns

Dear Mr. President and Members of the Legislature:

I am returning LB 1092 and LB 1092A without my signature and with my objections.

LB 1092 suggests the need for further study into the feasibility of developing a state meat inspection program. I believe that it would be premature to hire a permanent full-time program administrator to conduct such a study. It would be more prudent to conduct an interim study to explore the interest and feasibility of such a program. After receiving the results of such a study, the details of any necessary statutory changes, cooperative agreements, and other requirements could be developed.

I urge you to sustain my vetoes of LB 1092 and LB 1092A.

Sincerely,

Dear Mr. President and Members of the Legislature:

With this letter, I am returning LB 1363A with my signature but with certain line-item reductions.

I have vetoed $17,642 appropriated to the Nebraska Mexican American Commission for FY 2000-01. The Commission experienced an extended period of two staff vacancies during the current biennium. As a result of these temporary vacancies, an opportunity exists for the Commission to utilize accrued vacancy savings of approximately $20,000 toward the first year expenses of the Task Force on the Productive Integration of the Immigrant Workforce Population.

I urge you to sustain this reduction.

Sincerely,
(Signed) Mike Johanns

State Capitol
Lincoln, Nebraska 68509

Dear Mr. President and Members of the Legislature:

I am returning LB 1399A with my signature but with certain line-item reductions.

I have vetoed $820,000 Cash Funds appropriated for FY2000-01 and FY2001-02 to the Nebraska Department of Education, as well as the accompanying $820,000 transfers from the General Fund to the Attracting Excellence to Teaching Program Cash Fund.

The general fund line-item reductions amount to $1,230,000 over the next three years. My rationale for these line-item vetoes is based not only on the fiscal impact of the bill in our current state budget, but also upon the fact that the loan forgiveness program funded by LB 1399A will be one of many considered by the Teacher Salary Task Force in its consideration of future teacher pay, retention, and incentive packages.

For these reasons, I urge you to sustain the line-item reductions.

Sincerely,

Dear Mr. President and Members of the Legislature:

With this letter, I am returning LB 480 without my signature and with my objections. I am returning LB 480A with my signature and with line-item reductions.

LB 480 establishes the Women's Health Initiative of Nebraska within the Department of Health and Human Services. A new council of up to 30 members is created to advise the Women's Health Initiative in carrying out its duties. The Department is to employ personnel, including an executive director, to carry out the powers and duties of the initiative.

While the issues raised by LB 480 are significant and deserve serious attention, I do not believe that the best way to address them is by creating a new division of government and spending additional money on administration. Women's health is a priority issue of this administration. Diseases and conditions which affect the lives of women, as well as men and children, receive careful attention and will be given a heightened focus through the Office of Public Health within the Health and Human Service System. I do not believe a segmented administrative approach is the best solution to deal with women's health care needs.

In LB 480A, I am vetoing the General Fund appropriations. I endorse the idea of seeking private gifts, donations, and new grants, and the Director of Health and Human Services has been instructed to aggressively pursue such funding. The Women's Initiative Cash Fund will be administratively created, and the cash appropriation which remains in the A-bill can be the seed money for those efforts. The cash fund appropriation will be administratively increased, as provided for in current law, when such gifts, donations, or grants are received for the purposes described in LB 480.

I urge you to sustain my veto of LB 480 and my line-item reductions to LB 480A.

Sincerely,
(Signed) Mike Johanns

Dear Mr. President and Members of the Legislature:

With this letter, I am returning LB 652 and LB 652A without my signature and with my objections.

LB 652 transfers the Secure Youth Facility from the Department of Corrections to the Department of Health and Human Services, a proposal which I indicated that I could support. I believe the transfer has merit in providing an additional option for treating juveniles and bringing some relief to the overcrowding at the Youth Rehabilitation and Treatment Center at Kearney.

Also included in LB 652, however, is a shift of costs from the counties to the State. The bill would have the State assume costs for placing juveniles in facilities and programs where the State cannot exercise an appropriate level of responsibility.

In conjunction with the Juvenile Correctional Facilities Master Plan released in December of last year, I believe Nebraska's priorities should include working toward developing a continuum of services for delinquent youth. Along with those services must come the accountability of a single point of entry assessment process, or "gatekeeper," which would enable the State to decide on treatment options within a spectrum of all available resources. My budget recommendations included two elements needed to develop that continuum of services, a Wilderness Camp program and a parole revocation facility. Although, those options were not endorsed by the Legislature, the pure cost shift contained in LB 652 is not a viable alternate solution to this issue.

I am willing to engage in discussion over which services are felt to be the highest priorities, but within the constraints of the resources which Nebraska taxpayers are willing to commit, we should continue along a pathway which provides appropriate services and ensures accountability. We simply cannot assume the burden of new costs without those accountability assurances.

I urge you to sustain my vetoes of LB 652 and LB 652A.

Sincerely,

Dear Mr. President and Members of the Legislature:

I am returning LB 717 and LB 717A without my signature and with my objections.

LB 717 and LB 717A are not necessary to enable Local Emergency Planning Committees to conduct planning and programs approved by the State Emergency Response Commission under the Nebraska Emergency Planning and Community Right to Know Act. Given the status of our current State budget, and the fact that other funding sources are available for this program, I urge you to sustain my veto of LB 717 and 717A.

Sincerely,

Dear Mr. President and Members of the Legislature:

I am returning LB 922 and LB 922A without my signature and with my objections.

The Judicial Resources Commission recommendation for an additional district court judgeship in the 11th Judicial District has merit. The amended legislation, however, will have a General Fund impact of $693,934 in FY 2000-01 and FY 2001-02. Given our State's current budgetary constraints, I do not believe these expenditures to be justified this year.

I urge you to sustain my vetoes of LB 922 and LB 922A.

Sincerely,

Dear Mr. President and Members of the Legislature:

With this letter, I am returning LB 957A with my signature but with certain line-item reductions.

The General Fund appropriations of $110,000 in FY2000-01 and $110,000 in FY2001-02 are vetoed. The estimated cash fund appropriation of $80,000 for FY2000-01 from the Carbon Sequestration Assessment Fund remains. It is my expectation that other public and private sources will be made available to allow the carbon sequestration study to move forward.

I urge you to sustain the reductions to LB 957A.

Sincerely,

Dear Mr. President and Members of the Legislature:

I am returning LB 1107 without my signature and with my objections.

LB 1107 would cap at 47 percent the amount of property taxes that can be included as a formula resource in the state aid formula under the Tax Equity an Educational Opportunities Support Act. While the objective of providing property tax relief is laudable, and one I strongly support, I object to LB 1107 for the following two reasons: 1) the state aid to schools formula is not the best or most effective vehicle for providing property tax relief, and 2) LB 1007 reinforces an automatic process of establishing an appropriation for over 30 percent of our General Fund budget without regard to other important State needs and priorities.

For these reasons, I urge you to sustain this veto.

Sincerely,

Dear Mr. President and Members of the Legislature:

I am returning LB 171 without my signature and with my objections.

I sympathize with the Legislature's desire to provide the television broadcasting industry with some relief from a federal mandate. This bill, however, would set a dangerous and, in my opinion, an unwise precedent. If the State were to grant an exemption for the broadcasting industry, in fairness, then every industry subject to a federal mandate should expect to receive the same treatment. Regardless of federal mandates, the State must find a way to fund its priority obligations. In addition to setting an unwise precedent, the tax exemption included in LB 171 will deter the State from funding those obligations. Given the current budgetary situation, LB 171 cannot be justified.

I urge you to sustain my veto of LB 171.

Sincerely,

Dear Mr. President and Members of the Legislature:

I am returning LB 1401 and LB 1401A without my signature and with my objections.

LB 1401 includes many provisions that are not objectionable. However, LB 1401 amends the Tax Equity and Educational Opportunities Act by excluding school systems receiving less than twenty percent of their general fund operating expenses from property taxes from the aid formula's "lop-off" provision. The practical effect of this change is to direct $1 million in additional state aid to only a few specific school districts.

I understand many of the spending proposals reaching my desk this session, including LB 1401, may have merit. This year, LB 1401 does not represent a state spending priority.

I urge you to sustain my vetoes of LB 1401 and LB 1401A.

Sincerely,

LEGISLATIVE RESOLUTION 498. Introduced by Agriculture Committee: Dierks, 40, Chairperson; Cudaback, 36; Dickey, 18; Hilgert, 7; Janssen, 15; Schrock, 38; Vrtiska, 1.

PURPOSE: The purpose of this resolution is to examine issues associated with LB 1432, Ninety-sixth Legislature, Second Session. LB 1432 provided a procedure for the resolution of disputes involving the fairness of lease terms between agricultural tenants occupying land owned by railroads or their successors in interest. The study shall examine the implementation of similar laws in other states and seek information regarding the extent to which states may constitutionally intervene in such disputes and whether a compelling state interest exists in doing so.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 499. Introduced by Chambers, 11.

WHEREAS, the Legislature in 1988 enacted LB 876 which mandated the convening of a grand jury when a person dies while being apprehended by or while in the custody of a law enforcement officer or detention personnel;

WHEREAS, the Legislature in 1999 enacted LB 72 which mandated the appointment of a special prosecutor when a person dies while being apprehended by or while in the custody of a law enforcement officer or detention personnel;

WHEREAS, the provisions of both enactments are found in section 29-1401;

WHEREAS, courts and judges throughout the state have complied with the provisions of both enactments since their respective effective dates;

WHEREAS, on January 10, 2000, Deuel County District Judge Brian C. Silverman entered an order (In The Matter of A Grand Jury for The District Court in And for Deuel County, Doc. 14, Page 266) finding the above-referenced provisions unconstitutional, as "constitut(ing) an unlawful delegation and exercise of executive powers in violation of Art. 11, section 1, of the Nebraska Constitution";

WHEREAS, the deadline to appeal Judge Silverman's decision was February 9, 2000;

WHEREAS, the Deuel County Attorney did not timely appeal Judge Silverman's decision;

WHEREAS, the Attorney General did not timely appeal Judge Silverman's decision despite having (a) concurrent authority with the county attorney to do so pursuant to section 84-204, and (b) the duty to appeal pursuant to the first sentence of subdivision (10) of section 84-205;

WHEREAS, Judge Silverman's decision does not have statewide effect nor is it binding on any other judge of equal or higher jurisdiction;

WHEREAS, as long as Judge Silverman's decision remains intact, the law relative to grand juries will not be complied with in a segment of the state;

WHEREAS, in order to maintain public confidence in the integrity of the law, enforcement must not be spotty nor based on the opinion of a single, lower-court judge;

WHEREAS, the Uniform Declaratory Judgments Act, sections 25-21,149 to 25-21,164, is the appropriate method to obtain judicial determination of a statute's validity (State ex rel. Spire v. Northwestern Bell Tel. Co., 233 Neb. 262 , 1989)

WHEREAS, section 25-2156 states "The writ of mandamus may be issued to any inferior tribunal . . . to compel the performance of an act which the law specifically enjoins as a duty resulting from an office, trust or station";

WHEREAS, the Attorney General is empowered to seek either a declaratory judgment or a writ of mandamus;

WHEREAS, section 84-205 is mandatory and provides: "The duties of the Attorney General shall be: . . . (10) When requested by the . . . Legislature, the Attorney General shall appear for the state and prosecute or defend any action . . . in which the state is interested or a party before any court . . . ";

WHEREAS, the state has an interest in the complete and uniform enforcement of statutes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. The Legislature hereby requests the Attorney General to commence immediately the process of preparing and filing the appropriate action in the appropriate court to (a) obtain compliance by Judge Silverman with section 29-1401 or (b) obtain a declaratory judgment to obtain judicial determination of the validity of section 29-1401.

Laid over.

LEGISLATIVE RESOLUTION 500. Introduced by Appropriations Committee: Wehrbein, 2, Chairperson; Beutler, 28; Brown, 6; Crosby, 29; Engel, 17; Kiel, 9; Matzke, 47; D. Pederson, 42.

PURPOSE: On January 10, 2000, the Legislative Program Evaluation Committee released the Nebraska Ethanol Board Final Report. The report found that a policy question exists relative to the role of the board. The question arises because the Legislature has adopted a policy of moving away from the direct incentives that were used initially to attract ethanol plants to the state. The board has shifted its focus as well and now concentrates on opening new markets and promoting ethanol. The committee believes that these changes signal a need for legislative discussion of the appropriate role of the board.

The purpose of this study is to determine whether the board's current emphasis on opening new markets and promoting ethanol is an effective use of state resources and to provide direction to the board, either in support of its current efforts or as a means of refocusing the board's role and responsibilities.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Appropriations, Legislative Program Evaluation, and the Natural Resources Committees of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committees shall upon the conclusion of the study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

AM3367

(Amendments to Final Reading copy)

1. Strike the original section and insert the following new sections:

"Section 1. Section 71-1590, Revised Statutes Supplement, 1999, is amended to read:

71-1590. (1) The real and personal property of a local housing agency and any wholly owned controlled affiliate thereof used solely (a) for the administrative offices of the housing agency or wholly owned controlled affiliate thereof, (b) to provide housing for persons of eligible income and qualifying tenants, and (c) for appurtenances related to such housing shall be exempt from all taxes and special assessments of any city, any county, the state, or any public agency thereof, including without limitation any special taxing district or similar political subdivision. All other real and personal property of the housing agency or wholly owned controlled affiliate thereof shall be deemed to not be used for a public purpose for purposes of section 77-202 and shall be taxable as provided in sections 77-201 and 77-202.11. Property owned jointly by a housing agency or its wholly owned controlled affiliates with other nongovernmental persons or entities shall be exempt from such taxes and assessments to the extent of the ownership interest which the housing agency and its wholly owned controlled affiliates hold in the property and to the extent the property is used solely to provide housing for persons of eligible income and qualifying tenants. Nothing in this section shall be deemed to preclude a housing agency and its wholly owned controlled affiliates from entering into an agreement for the payment of all or any portion of any special assessments which might otherwise be assessed except for the exemption created by this section.

(2) A housing agency may agree to make payments in lieu of all taxes or special assessments to the county within whose territorial jurisdiction any development of such housing agency or its controlled affiliates is located, for improvements, services, and facilities furnished by the city, county, or other public agencies, for the benefit of such development. Nothing contained in this section shall be deemed to require such an agreement by a local housing agency, and in no event shall the amounts payable by the housing agency exceed the amounts which, except for the exemption provided in this section, would otherwise be payable under regular taxes and special assessments for similar properties referred to in subsection (1) of this section. All payments in lieu of taxes made by any such housing agency shall be distributed by the county to all public agencies in such proportion that each public agency shall receive from the total payment the same proportion as its property tax rate bears to the total property tax which would be levied by each public agency against property of the housing agency if the same were not exempt from taxation.

(3) The property of Indian housing authorities created under Indian law shall be exempt from all taxes and special assessments of the state or any city, village, or public agency thereof. In lieu of such taxes or special assessments, an Indian housing authority may agree to make payments to any city, village, or public agency for improvements, services, or facilities furnished by such city, village, or public agency for the benefit of a housing project owned by the housing authority, but in no event shall such payments exceed the estimated cost to such city, village, or public agency of the improvements, services, or facilities to be so furnished. All payments made by any such

housing authority in lieu of taxes, whether such payments are contractually stipulated or gratuitous voluntary payments, shall be distributed among the cities, villages, or public agencies within which the housing project is located, in such proportion that each city, village, or public agency shall receive from the total payment the same proportion as its ad valorem tax rate bears to the total ad valorem tax rate which would be levied by each city, village, or public agency against the properties of the Indian housing authority if the same were not exempt from taxation. For purposes of this section, (a) Indian housing authority means an entity that is authorized by federal law to engage or assist in the development or operation of low-income housing for Indians and which is established by the exercise of the power of self-government of an Indian tribe and (b) Indian law means the code of an Indian tribe recognized as eligible for services provided to Indians by the United States Secretary of the Interior.

Sec. 2. Original section 71-1590, Revised Statutes Supplement, 1999, is repealed.".

The following resolution was correctly enrolled: LR 494.

(Signed) Adrian M. Smith, Chairperson

ENROLLED RESOLUTION

LEGISLATIVE RESOLUTION 494. Introduced by Bromm, 23.

WHEREAS, the federal decennial census is currently being conducted; and

WHEREAS, the Nebraska Legislature is charged with redistricting the boundary lines for congressional, legislative, supreme court, public service commission, board of regents, and state board of education districts in Nebraska following the decennial census in the Ninety-seventh Legislature, First Session; and

WHEREAS, the Nebraska Legislature desires to outline a fair and open redistricting process, encouraging the input of all members of the Legislature; and

WHEREAS, the Nebraska Legislature seeks to encourage the input of the public in the redistricting process; and

WHEREAS, the Nebraska Legislature desires to set forth a plan for seeking to achieve the objectives stated in this resolution.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature adopts the Nebraska Redistricting Resolution to establish the process that is intended to be followed in the redistricting process.

Section 1. This resolution shall be known and may be cited as the Nebraska Redistricting Resolution.

Sec. 2. For purposes of the Nebraska Redistricting Resolution, it is intended as follows:

(1) Board means the Executive Board of the Legislative Council;

(2) Director means the Director of Research of the Legislature or his or her designee;

(3) Other district means a legislative district, supreme court judicial district, public service commission district, board of regents district, or state board of education district;

(4) Redistricting process means the activities that relate to the redrawing of district boundaries for congressional districts and other districts

undertaken in conjunction with the federal decennial census; and

(5) Task force means the redistricting advisory task force established pursuant to section 3 of this resolution.

Sec. 3. (1) There is hereby established a redistricting advisory task force. The task force shall be comprised of nine members of the Legislature, three from each congressional district existing on January 1 of the year following the year in which the federal government takes the decennial census. Members of the task force shall be appointed by the board at any time after the board has been reconstituted in January of the year following the year in which the federal government takes the decennial census. No more than five of the members appointed to the task force shall be of the same political party. The task force shall continue throughout the redistricting process and shall be reconstituted pursuant to this section in the event of a successful legal challenge to any part of the redistricting process.

(2) The task force shall be responsible for overseeing the redistricting process under the Nebraska Redistricting Resolution. Funds shall be expended for the purchase or lease of equipment and materials to be used for the redistricting process only with the prior approval of the chairperson of the board.

(3) At the first meeting of the task force, the members shall select from among themselves by majority vote one member to serve as chairperson of the task force and one member to serve as vice-chairperson of the task force.

(4) The task force shall receive staff support from the director.

Sec. 4. (1)(a) The Redistricting Task Force, created by LR 174 in 1999, which was continued by LR 297 in 2000, shall draft and recommend the substantive and procedural guidelines that will guide the Legislature's 2001 redistricting process. The substantive and procedural guidelines shall be formulated by the beginning of the 2001 legislative session and presented to the Legislative Council for its approval.

(b) In 2001, the task force established by this resolution shall, based upon the data received from the United States Bureau of the Census, compile statistics, redraw congressional district boundaries and other district boundaries, and prepare redistricting plans and maps reflecting the proposed new boundaries.

(2) The task force shall cause legislative bills to be introduced pertaining to the redistricting process during the first ten days of the legislative session. The plans shall be introduced as amendments to such bills pursuant to section 6 of this resolution.

(3) Nothing in the Nebraska Redistricting Resolution shall be construed to preclude a member of the Legislature from introducing a bill or an amendment pertaining to the redistricting process.

Sec. 5. (1) The director shall only provide such information regarding the plans as may be required by guidelines adopted by the task force to persons outside (a) his or her office and (b) the office of the Revisor of Statutes.

(2) A request to the director for the preparation of a redistricting plan by any member of the Legislature shall be confidential, and information related to such plan shall be released only by such member.

Sec. 6. (1) The task force shall prepare proposed plans for drawing congressional and other district boundaries. As soon as possible in conjunction with such plans, the task force shall make the following available to the Legislature and to the public: (a) Copies of the amendments embodying the plans; (b) maps illustrating the plans; and (c) a statement that includes: (i) The ideal population of a congressional district and the other districts; (ii) the population of each congressional district and each other district created in the plans; and (iii) the percentage deviation from the ideal population of each proposed congressional district and each other district created in the plans.

(2) The task force shall then schedule and conduct at least one public hearing in each congressional district for the purposes of soliciting input on the proposed plans.

(3) Following the public hearings, the task force shall (a) cause to be made available transcripts of testimony received during the public hearings and (b) deliver its amendments embodying the plans to the legislative committee to which the bills were referred.

(4) The committee shall hold a public hearing on the amendments proposed by the task force.

Sec. 7. (1)(a) Boundaries of congressional districts and other districts shall be established on the basis of population and census geography.

(b) Congressional districts and other districts shall have a population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established into the population of the state reported in the most recent federal decennial census.

(c) The population of congressional districts and other districts shall not vary from the relevant ideal district populations except as allowed by subdivisions (d) and (e) of this subsection.

(d) No congressional district shall have a population which causes a plan to have a relative deviation in excess of plus or minus one-half percent, based on the ideal district population.

(e) No other district shall have a population which causes a plan to have a relative deviation in excess of the guidelines established by the task force.

(2) County lines shall be followed whenever practicable for boundaries of congressional districts and other districts. To the greatest extent possible, consistent with subsection (1) of this section, the boundaries shall coincide with the boundaries of cities and villages of the state.

(3) The number of counties, cities, and villages divided among more than one congressional district or other district shall be as small as possible. If a county, city, or village must be divided, the division shall be made along clearly recognizable boundaries, using visible, recognizable physical features which meet the requirements of the United States Bureau of the Census.

(4) Congressional districts and other districts shall be composed of contiguous and compact territory. Areas which meet only at the points of adjoining corners shall not be deemed contiguous.

(5) No congressional district or other district shall be drawn for the purpose of favoring a political party, an incumbent, or any other person or group or which results in the unlawful dilution of the voting strength of a language or racial minority group.

(6) In establishing congressional districts and other districts, the following data shall not be used:

(a) Addresses of incumbents;
(b) Political affiliations of registered voters; and
(c) Demographic information, other than population head counts, and previous election results, except as required by the laws and Constitution of the United States.

Laid over.

MESSAGES FROM THE GOVERNOR

These bills were signed by me on April 11, 2000, and delivered to the Secretary of State.

April 11, 2000

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. President and Members of the Legislature:

With this letter, I am returning LB 1008 with my signature but with a line-item reduction.

I am reducing the General Fund appropriation by $40,000 in FY 2000-01. This same amount is included in LB 1008A.

With the additional funding provided in LB 1008A, the Commission on Law Enforcement and Criminal Justice will have available $200,000 required to complete the criminal homicide study this biennium, plus the on-going funding necessary to update the study.

I urge you to sustain this reduction to LB 1008.

Sincerely,
(Signed) Mike Johanns
Governor

April 11, 2000

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. President and Members of the Legislature:

I am returning LB 956 without my signature and with my objections.

LB 956 would provide for salary increases for the State's constitutional officers. The Governor's salary would be increased, effective January 9, 2003, by thirty-one percent. I appreciate your willingness to examine the salary levels of Nebraska constitutional officers as compared to officeholders of other states. At a time, however, when I have vetoed many meritorious proposals due to our current budget constraints, I cannot in good conscience agree to raise my salary, along with those of other constitutional officers.

For these reasons, I urge you to sustain this reduction to LB 956.

Sincerely,
(Signed) Mike Johanns
Governor

LEGISLATIVE JOURNAL

NINETY-SIXTH LEGISLATURE SECOND SESSION

MESSAGE FROM THE GOVERNOR

April 13, 2000

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. President and Members of the Legislature:

I am returning LB 925 and LB 925A without my signature and with my objections.

As you know, my hesitation to propose or support any new child care initiatives that have a fiscal impact this year has been occasioned by the very tight financial situation we currently face. A business tax credit for providing or subsidizing child care for employees fits within the recommendations of the report issued by my Business Council on Child Care Financing. Although I had hoped that we would take a more comprehensive look at options for child care financing in the context of the next legislative session, I would have been inclined to sign the bill if it had contained the business credit alone and had proved feasible under the financial picture presented by this year's overall legislative package. With the addition, however, of the LB 914 provisions, I am unable to approve the bill. Extending the time for welfare parents to stay home after the birth of their child from twelve weeks to twelve months before going to work or to job training is not consistent with either Nebraska's goal to break the welfare cycle or with the type of maternity leave provided to the majority of Nebraska working families. To the contrary, LB 925 turns back the clock on Nebraska's welfare reform efforts.

I look forward to working with you further to evaluate viable options for child care financing for Nebraska.

Sincerely,
(Signed) Mike Johanns
Governor
